CONTROLLING HEALTH CARE COSTS

Making choices about health care can sometimes be difficult. When seeking health care, take the same approach as for buying anything else. Ask questions. Make sure and get the most appropriate care for the condition. Use the following guidelines to be a wise health care consumer:

Practice Good Health Habits. Staying healthy is the best way to control medical costs. Eat a balanced diet, exercise regularly, and get enough sleep. Learn how to handle stress. Stop smoking and avoid excessive use of alcohol.

See a Doctor Early. Don't let a minor problem become a major one. This makes treatment more difficult and expensive.

Make Sure Surgery is Needed. If a second opinion program is included, get one if unsure about the surgery. If surgery is needed, ask about same day surgery. Many procedures can be performed safely without a Hospital stay. Have these surgeries as an outpatient or at a place other than a Hospital and go home the same day.

Use Outpatient Services for X-ray or Laboratory Tests. Outpatient preadmission and diagnostic tests can save costly room and board charges.

Compare Prescription Drug Prices. Discuss the use of generic drugs with the doctor or pharmacist. Generic drugs are often cheaper than brand name drugs for the same quality.

Consider Hospital Stay Alternatives. Home Health Care, Skilled Nursing Facilities, and Hospice Care services offer quality care in comfortable surroundings for less cost than staying in the Hospital.

Review Medical Bills Carefully. Make sure all charges are understood and bills received are only for services received. Keep medical records up-to-date.

Talk to the Doctor. Discuss the need for treatment with the doctor. To make wise health care decisions, understand the treatment and any risks or complications involved. Ask about treatment costs too. With today's health care costs, the doctor will understand concerns about medical expenses.

Be a wise health care consumer. Review benefits carefully so informed health care decisions can be made. Help control health care costs while getting the most this health care coverage has to offer.

SUMMARY OF BENEFITS **(Effective January 1, 2023)**

COMPREHENSIVE MEDICAL EXPENSE INSURANCE

This section highlights the benefits provided under this insurance. The purpose is to give the Insured Person quick access to the information he or she will most often want to review. **Please read the other sections of this booklet-certificate for a more detailed explanation of benefits and any limitations or restrictions that might apply.**

If an Insured Person is sick or injured, Scheduled Benefits then in force will be payable for Covered Charges. Scheduled Benefits are based on the Member's class:

Class	Scheduled Benefit
All Members and their Dependents	Comprehensive Medical

PREFERRED PROVIDER ORGANIZATION (PPO)

The Policyholder participates in a Preferred Provider Organization (PPO) network established and administered by the PPO shown on the Insured Person's identification card.

Preferred Provider Organization networks are arrangements whereby Hospitals, Physicians, and other providers are contracted to furnish, at negotiated costs, medical care for Members of participating Policyholders.

It is expected that the Policyholder's participation in the PPO will result in significant savings of funds needed to maintain the Member's coverage. These savings are to be passed on to the Member in the form of higher benefits payable for covered services received by Insured Persons from Preferred Providers.

Please note that the Policyholder's participation in the PPO network does not mean that the Insured Person's choice of provider will be restricted. The Insured Person may still seek needed medical care from any Hospital, Physician, or other provider. However, in order to avoid higher charges and reduced benefit payments, the Insured Person is urged to obtain such care from Preferred Providers whenever possible.

The Company has the right to terminate the PPO portion of this coverage if the Company or the PPO terminates the arrangement.

The Company also has the right to identify different Preferred Provider Organizations from time to time, and to terminate the designation of any Preferred Provider at any time.

A current listing of the participating Hospitals, Physicians, and other providers is available through an on-line Preferred Provider directory. By accessing the Nippon Life Insurance Company of America website at www.nipponlifebenefits.com, the Insured Person can review Preferred Provider directories for the PPO Network. If the Insured Person does not have internet access, the Insured Person can call the number on the Insured Person's ID card. The Company recommends that the Insured Person (1) verify his or her provider's participation in the network before seeking treatment; and (2) confirm the provider's PPO participation when making an appointment.

Consolidated Appropriations Act Nippon Life Insurance Company of America

As described in this Rider, the Group Policy is modified as stated below to comply with the applicable provisions of the *Consolidated Appropriations Act (the “Act”)* (P.L. 116-260). This Rider reflects requirements of the Act; however, these requirements do not preempt applicable state law to the extent it is a “Specified State Law” as defined in 42 U.S.C.A. § 300gg-111(a)(3)(I).

Because this Rider is part of a legal document (the Group Policy), the Company wants to give Insured Persons information about the document that will help Insured Persons understand it. Certain capitalized words have special meanings. We have defined these words in booklet-certificate form NBM 5136 and in the Definitions section below.

Surprise Medical Bills for Emergency Services

Coverage for Emergency Services will be provided without the need for Precertification, even if the Treatment or Services are provided on an out-of-network basis. Coverage will also be provided without regard to whether the health care provider furnishing the Emergency Services is a Participating Provider or a Participating Emergency Facility, as applicable, with respect to the Treatment or Service.

Emergency Services provided by a Nonparticipating Provider or a Nonparticipating Facility will be covered in the following manner:

- without imposing any administrative requirement, limitation on coverage or Cost-Sharing requirements which are greater or more restrictive than those imposed on a Participating Provider or Participating Emergency Facility;
- by calculating the Cost-Sharing requirement as if the total amount that would have been charged for the Treatment or Service by such participating entity were equal to the Recognized Amount for such Treatment or Service; and
- by counting any Cost-Sharing payments made by the Insured Person with respect to the Emergency Services toward any in-network Deductible or in-network out of pocket maximums applied under the Group Policy in the same manner as if the Cost-Sharing payment were made by a Participating Provider or Participating Emergency Facility.

The total payment under the Group Policy will be equal to the Out-of-Network Rate, as defined herein.

Surprise Medical Bills for Non-Emergency Services

Coverage for Treatment or Service furnished to an Insured Person by a Nonparticipating Provider with respect to a visit to a Participating Health Care Facility will be covered as follows:

- there will be no imposition of a Cost-Sharing requirement for the Treatment or Service which are greater than the Cost-Sharing requirement that would have been applied if the Treatment or Service had been furnished by a Participating Provider;
- Cost-Sharing requirements will be calculated as if the total amount that would have been charged for the Treatment or Service by such Participating Provider were equal to the Recognized Amount for the Treatment or Service;
- a determination no later than 30 calendar days after the bill is transmitted by the provider whether the Treatment or Services are covered under the Group Policy and if the Treatment or Services are Covered Charges, send to the provider an initial payment or denial notice.
- any Cost-Sharing payment made by the Insured Person will be counted toward any in-network Deductible and in-network out-of-pocket maximums under the Group Policy in the same manner as if such Cost-Sharing payments were made with respect to the Treatment or Service furnished by a Participating Provider.

The total payment under the Group Policy will be equal to the Out-of-Network Rate, as defined herein.

Surprise Medical Bills for Air Ambulance Services

Coverage for Insured Persons from Treatment or Service furnished by a Nonparticipating Provider of Air Ambulance Services will be covered as follows:

- the Cost-Sharing requirements with respect to the Treatment or Service will be the same requirement that would apply if the Treatment or Service was provided by a Participating Provider of Air Ambulance Services.
- the Cost-Sharing requirement will be calculated as if the total amount that would have been charged for the Treatment or Service by a Participating Provider of Air Ambulance Services were equal to the lesser of the Qualifying Payment Amount or the billed amount for the Treatment or Service.
- the Cost-Sharing amounts will be counted towards any in-network Deductible and in-network out-of-pocket maximums applied under the Group Policy in the same manner as if the Cost-Sharing payments were made with respect to Treatment or Service furnished by a Participating Provider of Air Ambulance Services.

The total payment under the Group Policy will be equal to the Out-of-Network Rate, as defined herein.

II. Dispute Resolution

Any dispute that arises as to the provision of payment for Treatment or Service as described above will be considered an Adverse Benefit Determination. Any dispute that arises regarding the provision of payment between the Company and a provider, facility or Air Ambulance Service will be resolved pursuant to the independent dispute resolution process articulated in 29 CFR §§ 2590.716-8 and 2590.717-2.

III. Continuity of Care

The Act provides that if an Insured Person is currently receiving Treatment or Service for Covered Charges from a provider whose network status changes from in-network to out-of-network during such Treatment or Service due to Termination (non-renewal or expiration) of the provider's contract, the Insured Person may be eligible to request continued care from their current provider under the same terms and conditions that would have applied prior to Termination of the provider's contract for specified conditions and timeframes.

For the purposes of this “Continuity of Care” provision the following definitions apply:

Continuing Care Patient means an individual who is:

- undergoing a course of treatment for a serious and complex condition from the provider or facility;
- is undergoing a course of institutional or inpatient care from the provider or facility;
- is scheduled to undergo non-elective surgery from the provider, including receipt of post-operative care;
- is pregnant and undergoing a course of treatment for the pregnancy from the provider or facility; or
- is determined to be terminally ill and is receiving treatment for such illness from a provider or facility.

Terminated or **Termination** means the expiration or non-renewal of a contract but does not apply to provider contracts terminated for failure to meet applicable quality standards or for fraud.

If a contractual relationship between a health care provider or facility and the network is Terminated or the benefits being provided to an Insured Person under the Group Policy is Terminated because of either a change of terms in the participation of such a provider or a loss of benefits being provided under the Group Policy; the Company will:

- notify each Insured Person, on a timely basis, who is enrolled under the Group Policy who is a Continuing Care Patient with respect to a provider or facility at the time of such Termination and the Insured Person's right to elect continued transition care from the provider or facility;
- provide the Insured Person with an opportunity to notify the Company of the Insured Person's need for transitional care; and
- permit the Insured Person to elect to continue to have benefits provided under the Group Policy, with the same terms and conditions, as would have applied and with respect to such Treatment or Service as would have been covered had such Termination not occurred, with respect to the course of treatment furnished by the provider or facility as related to the Insured Person's status as a Continuing Care Patient until the date the Insured Person is no longer a Continuing Care Patient.

IV. Provider Directories

The Act provides that if an Insured Person receives a Treatment or Service from an out-of-network provider and was informed incorrectly by the Company prior to receipt of the Treatment or Service that the provider was an in-network provider, either through the Company's database, the provider directory, or in the Company's response to an Insured Person's request for such information (via telephone, electronic, web-based or internet-based means), the Insured Person may be eligible for Cost-Sharing that would be no greater than if the Treatment or Service had been provided from an in-network provider.

All other terms, provisions, conditions, limitations, and exclusions of the Group Policy remain in full force and effect with respect to benefits and all other aspects of the insurance of the Group Policy, and are controlling with respect to this Rider unless expressly modified herein.

Nothing in this Rider will vary, alter, or extend any provision or condition of the Group Policy(ies) other than as stated in this Rider.

HOW TO BE INSURED – MEMBERS

MEDICAL EXPENSE INSURANCE

Eligibility

Persons enrolling for insurance must be a Member (as defined in page NBM 5136) who Resides in the United States.

If the person is a Member on January 1, 2023, the person will be eligible on that date.

If the person is not a Member until later, the person will be eligible on the first of the Insurance Month coinciding with or next following the date the person becomes a Member.

A person will not be eligible for insurance under the Group Policy while he or she is covered under an HMO offered by the Policyholder as an alternative insurance to the Group Policy.

Individual Incontestability and Eligibility

All statements made by any Member or Dependent will be representations and not warranties. In the absence of fraud, these statements may not be used to contest the Insured Person's insurance unless:

- the insurance has been in force for less than three years during the Insured Person's lifetime; and
- the statement is in Written form Signed by the Insured Person; and
- a copy of the form which contains the statement is given to the Insured Person or the Insured Person's beneficiary at the time insurance is contested.

However, the above will not preclude the assertion at any time of defenses based upon the person not being eligible for insurance under the Group Policy or upon other provisions of the Group Policy.

In addition, if a person's age is misstated, the Company may, at any time, adjust premiums and benefits to reflect the correct age.

The Company may at any time terminate an Insured Person's eligibility under the Group Policy:

- in Writing and with 31 day notice, if the individual submits any claim that contains false or fraudulent elements under state or federal law;
- in Writing and with 31 day notice, upon finding in a civil or criminal case that an Insured Person has submitted claims that contain false or fraudulent elements under state or federal law;

- in Writing and with 31 day notice, when an Insured Person has submitted a claim which, in good faith judgment and investigation, an Insured Person knew or should have known, contains false or fraudulent elements under state or federal law.

Effective Date for Non-Contributory Insurance

Unless the Member waives coverage in Writing and is covered under another group medical policy, insurance for which the Member contributes no part of the premium will become effective on the date the Member is eligible. The Member must enroll for initial insurance in a form provided by the Company.

If enrollment for non-contributory insurance is made more than 31 days after the date a Member is eligible and other than during an Annual Open Enrollment Period or a Special Enrollment Period described below, insurance for such Member will become effective as described below for Late Enrollees.

If enrollment for non-contributory insurance is made more than 31 days after the date a Member is eligible but during an Annual Open Enrollment Period described below, insurance for such Member will become effective as described below under "Annual Open Enrollment Period".

If enrollment for non-contributory insurance is made more than 31 days after the date a Member is eligible but during a Special Enrollment Period described below, insurance for such Member will become effective as described below under "Special Enrollment Periods" (other than a "Medicaid or Child Health Insurance Program (CHIP) Special Enrollment Period").

If enrollment for non-contributory insurance is made more than 60 days after the date a Member is eligible but during a Special Enrollment Period described below, insurance for such Member will become effective as described below under "Medicaid or Child Health Insurance Program (CHIP) Special Enrollment Period".

Effective Date for Contributory Insurance

If the Member is required to contribute towards the cost of his or her insurance, the Member must enroll for initial insurance in a form provided by the Company. The insurance will become effective on:

- the date the Member is eligible, if the Member's enrollment is made within 31 days after the date he or she is eligible, or
- the first of the Insurance Month coinciding with or next following the date of the Member's enrollment, if the Member's enrollment is made within 31 days after the date he or she is eligible.

If enrollment for contributory insurance is made more than 31 days after the date a Member is eligible and other than during an Annual Open Enrollment Period or a Special Enrollment Period described below, insurance for such Member will become effective as described below for Late Enrollees.

If enrollment for contributory insurance is made more than 31 days after the date a Member is eligible but during an Annual Open Enrollment Period described below, insurance for such Member will become effective as described below under "Annual Open Enrollment Period".

If enrollment for contributory insurance is made more than 31 days after the date a Member is eligible but during a Special Enrollment Period described below, insurance for such Member will become effective as described below under "Special Enrollment Periods" (other than a "Medicaid or Child Health Insurance Program (CHIP) Special Enrollment Period").

If enrollment for contributory insurance is made more than 60 days after the date a Member is eligible but during a Special Enrollment Period described below, insurance for such Member will become effective as described below under "Medicaid or Child Health Insurance Program (CHIP) Special Enrollment Period".

Statement of Health Requirements

A statement of health, in a form provided by the Company, may be required from a Member. The statement of health will be used for rating the group, case management or reinsurance purposes. In no event will a person be declined for insurance, or charged an additional premium, due to his or her health status.

Late Enrollment Provisions

- Definition

Late Enrollee. Late Enrollee means, with respect to insurance under a Policyholder's Group Health Plan, a Member or Dependent who enrolls under such plan other than during:

- (1) the first period in which the individual is eligible to enroll under the Group Health Plan; or
- (2) a Special Enrollment Period described below.

For the purpose of (1) above, only the most recent period of eligibility will be considered in determining whether an individual is a Late Enrollee if:

- (1) the individual loses eligibility under the Group Health Plan or due to a general suspension of the Group Health Plan; and
- (2) the individual later becomes eligible again under the Group Health Plan or due to resumption of the Group Health Plan's insurance.

The term "Late Enrollee" also means a Member or Dependent who:

- (1) was previously insured under the Group Policy but elected to terminate the coverage; and
- (2) reapplies for insurance more than 31 days after the termination date; and
- (3) does not qualify for one of the Special Enrollment Periods described below.

Effective Date for Late Enrollees

If a Late Enrollee enrolls for insurance other than during an Annual Open Enrollment Period or a Special Enrollment Period, the effective date of insurance for the Late Enrollee will be the next Policy Anniversary date, provided on such date:

- (1) the Member continues to meet the Group Policy's definition of a Member; and
- (2) for Dependent insurance, the Dependents continue to meet the Group Policy's definition of Dependent.

Annual Open Enrollment Period

An Annual Open Enrollment Period will be available for any Member or Dependent who failed to enroll:

- (1) during the first period in which he or she was eligible to enroll, or during any subsequent Special Enrollment Period as described below; or
- (2) during any previous Annual Open Enrollment Period; or
- (3) within 31 days after the termination date, if the individual was previously insured under the Group Policy but elected to terminate the insurance.

To qualify for enrollment during the Annual Open Enrollment Period, the Member or Dependent:

- (1) must meet the eligibility requirements described in the Group Policy, including satisfaction of any applicable Waiting Period; and
- (2) may not be covered under an alternate medical expense coverage offered by the Policyholder, unless the Annual Open Enrollment Period happens to coincide with a separate open enrollment period established for coverage election.

The Annual Open Enrollment Period is the one-month period immediately prior to the Policy Anniversary date. The Policy Anniversary date is January 1.

The effective date for any qualified individual enrolling for insurance during the Annual Open Enrollment Period will be the day immediately following completion of the Annual Open Enrollment Period.

- **Special Enrollment Periods**

If the Member or Dependent enrolls after the first period in which the Member or Dependent were eligible to enroll but during a Special Enrollment Period as described below, the Member or Dependent will be a Special Enrollee and will not be considered a Late Enrollee.

The Special Enrollment Periods are:

- (1) Loss of Other Coverage. A Special Enrollment Period will apply to a Member or Dependent if all of the following conditions are met:
 - (i) the Member or Dependent was covered under another Group Health Plan or had other Health Insurance Coverage at the time of his or her initial eligibility, and declined enrollment solely due to the other coverage; and
 - (ii) the other coverage terminated due to loss of eligibility (including loss due to divorce or legal separation, death, cessation of Dependent status, termination of employment or reduction in work hours, when the individual no longer resides, lives or works in a service area and there is no other benefit package available under the other Group Health Plan, or when the other Group Health Plan no longer offers any benefits to a class of similarly situated individuals), or due to termination of employer contributions (or, if the other coverage was under a COBRA or state continuation provision, due to exhaustion of the continuation); and
 - (iii) enrollment is made within 31 days after the other coverage terminates.

The effective date of insurance will be the first day of the Insurance Month coinciding with or next following the date of the enrollment.

NOTE: For the purpose of (1) (ii) above:

- (i) "loss of eligibility" does not include a loss due to failure of the individual to pay premiums on a timely basis or termination of insurance for cause (such as making a fraudulent claim or an intentional misrepresentation of a material fact in connection with the health insurance); and
- (ii) "employer contributions" include contributions by any current or former employer (of the individual or another person) that was contributing to the insurance of the individual.

(2) Newly Acquired Dependents. A Special Enrollment Period will apply to the Member or Dependent if:

- (i) the Member is enrolled (or is eligible to be enrolled but failed to enroll during a previous enrollment period); and
- (ii) a person becomes the Member's Dependent through marriage, birth, adoption or Placement for Adoption; and
- (iii) enrollment is made within 31 days after the later of the date of the marriage, birth, adoption or Placement for Adoption, or the date Dependent Medical Expense Insurance is available to the Member under the Group Policy.

The effective date of the Member's or Dependent's insurance will be:

- (i) in the event of marriage, the date of marriage; or
- (ii) in the event of a Dependent Child's birth, the date of such birth; or
- (iii) in the event of a Dependent Child's adoption or Placement for Adoption, the date of such adoption or Placement for Adoption, whichever is earlier.

(3) Court-Ordered Coverage Under a Qualified Medical Child Support Order (QMCSO) or National Medical Support Notice (NMSN): A Special Enrollment Period will apply to the Member or Dependent Child if:

- (i) the Member is enrolled (or eligible to be enrolled but failed to enroll during a previous enrollment period); and
- (ii) the Member failed to enroll his or her Dependent Child during a previous enrollment period; and
- (iii) the Member is required by a QMCSO or NMSN as defined by federal law and state insurance laws to provide health coverage for his or her Dependent Child.

The enrollment:

- (i) may be made at any time after the issue date of the QMCSO or NMSN; and
- (ii) will apply only to the Member and/or Dependent Child(ren) listed in the QMCSO or NMSN.

The effective date of the Member's or Dependent Child's insurance will be the first of the Insurance Month coinciding with or next following the date of the enrollment.

An enrollment for any Dependent not listed in the QMCSO or NMSN will be subject to the regular effective date provisions of the Group Policy.

A copy of the procedures governing qualified medical child support orders (QMCSO) can be obtained from the plan administrator without charge.

- (4) All Other Court-Ordered Coverage. A Special Enrollment Period will apply to the Member, the Member's Dependent Child if:
- (i) the Member is enrolled but failed to enroll the Dependent Child during a previous enrollment period; and
 - (ii) the Member is required by a court or administrative order to provide health insurance for the Dependent Child; and
 - (iii) enrollment is made within 31 days after the issue date of the court or administrative order.

The effective date of the Member's, the Dependent Child's insurance will be the first of the Insurance Month coinciding with or next following the date of the enrollment.

- (5) Medicaid or Child Health Insurance Program (CHIP) Plan. A Special Enrollment Period will apply to a Member and Dependents if either of the following conditions is met:
- (i) the Member or Dependent is covered under a Medicaid or CHIP plan and coverage is terminated as a result of the loss of eligibility for Medicaid or CHIP coverage and request for enrollment is made within 60 days after the date coverage is terminated; or
 - (ii) the Member or Dependent becomes eligible for premium assistance under Medicaid or CHIP to purchase coverage under the Group Policy and request for enrollment is made within 60 days after the date eligibility for premium assistance is determined.

The effective date of insurance will be the first of the Insurance Month coinciding with or next following the day after the other coverage terminates or the date of eligibility for premium assistance.

Effective Date for Benefit Changes

A change in the Member's Scheduled Benefit amount because of a change in his or her status (insurance class) will be effective on the first of the Insurance Month coinciding with or next following the date of change in status.

A change in the Scheduled Benefits because of a change in the schedule of insurance elected by the Policyholder will be effective on the date of change.

Termination

Unless continued as provided below or on page NBM 5117 A, NBM 5117 B, NBM 5117 C, and NBM 5117 D, a Member's insurance under the Group Policy will cease on the earliest of:

- the date the Group Policy terminates; or
- for contributory insurance, the end of the Insurance Month, if requested by the Member before that date; or
- the end of the Insurance Month in which the Member ceases to belong to a class for which insurance is provided; or
- the end of the Insurance Month in which the Member ceases to be a Member; or
- the end of the Insurance Month in which the Member ceases to be actively employed; or
- the date the Member transfers to an HMO offered by the Policyholder as an alternative to coverage under the Group Policy.

Termination of Insurance While Outside of the United States

If the Member is outside the United States for more than six consecutive months, his or her insurance will automatically terminate. However, the Member will continue to be eligible for benefits provided under the Group Policy if the Member is temporarily outside of the United States for a period of six months or less.

Continuation

If the Member ceases to be actively employed because of his or her sickness or injury, the Member's Medical Expense Insurance may be continued until the earlier of the date the Member returns to active employment, or the date insurance would otherwise terminate as described above, but in no event longer than 12 consecutive months.

If the Member ceases to be actively employed because of layoff or leave of absence, insurance may be continued on a limited basis, but in no event longer than one month.

If coverage under the Group Policy is continued under either COBRA or a state continuation mandate, this continuation coverage provided will run concurrently with the COBRA or state continuation.

The Member's coverage may also be continued by paying the required contribution, if any, under the continuation provisions described on page NBM 5117 A, NBM 5117 B, NBM 5117 C and NBM 5117 D.

All continuation provisions may run concurrently.

If the Member is interested in continuing his or her insurance beyond the date it would normally terminate, the Member should consult with the Policyholder before his or her insurance terminates.

HOW TO BE INSURED - DEPENDENTS

MEDICAL EXPENSE INSURANCE

Eligibility

A Member's spouse must Reside in the United States to be eligible for Dependent Medical Expense Insurance.

A Member will be eligible for Dependent insurance on the latest of:

- the date the Member is eligible for Member insurance; or
- the date the Member enters a class for which Dependent insurance is provided; or
- the date the Member first acquires a Dependent.

Effective Date

Dependent insurance is available only with respect to Dependents of Members currently insured for Member Insurance. If a Member is eligible for Dependent insurance, such insurance will become effective under the same terms as described earlier for Member insurance, except any required statement of health will be with respect to the health of the Member's Dependents.

If Dependent insurance is then in effect for any other Dependent, a new Dependent will be insured on the date acquired. Enrollment for insurance is not required provided the Company is notified of the new Dependent within 31 days after the date the Dependent is acquired. With respect to medical benefits for a newborn or newly adopted Dependent Child, effective date provisions are modified as described below.

Insurance for a Newborn or Newly Adopted Child

A newborn child will be insured for medical benefits from the moment of birth provided the child meets the Group Policy's definition of a Dependent Child. A newly adopted child will be covered for medical benefits on the date of adoption or Placement for Adoption (whichever is earlier), provided the child meets the Group Policy's definition of a Dependent Child. Any applicable prior application or first of the Insurance Month provisions will be waived with respect to such child.

However, if the Member is required to contribute toward the cost of Dependent insurance, the Member must notify the Company within 31 days after the date of birth, adoption or Placement for Adoption, in order to continue the child's insurance beyond the 31-day period. If such notice is not given to the Company within the 31-day period, the child will be subject to the Late Enrollment provisions. If the Member's enrollment is a result of a QMCSO or NMSN, the child will not be a Late Enrollee and is eligible for a Special Enrollment Period as described on page NBM 5115 O.

If the child's insurance terminates because the Member fails to enroll for insurance (or pay the required contribution) within the 31-day period following the child's date of birth, adoption or Placement for Adoption, benefits will be payable only for covered expenses incurred by the child during the 31-day period in which insurance was in force. The Individual Purchase Rights and the Extended Benefits (after termination of insurance) will not apply to the child.

Individual Incontestability and Eligibility

A Member's Dependents will be subject to the Individual Incontestability and Eligibility as described earlier for Member insurance.

Termination

Unless continued as provided on page NBM 5117 A, NBM 5117 B, NBM 5117 C, and NBM 5117 D:

- Insurance for all of the Member's Dependents will terminate on the earliest of:
 - the end of the Insurance Month in which the Member ceases to belong to a class for which Dependent insurance is provided; or
 - the date Dependent coverage is removed from the Group Policy; or
 - the date the Member's insurance ceases; or
 - the end of the Insurance Month in which the last premium is paid for the Member's Dependent Medical Expense Insurance.
- Insurance for any one Dependent will terminate on the earlier of:
 - the last day of the Insurance Month in which he or she ceases to be the Member's Dependent; or
 - for contributory insurance, the end of the Insurance Month, if requested by the Member before that date.

Notwithstanding the above, insurance will terminate on the last day of the calendar month in which the Member's Dependent Child turns age 26.

However, insurance will be continued beyond the maximum age for a Dependent Child who is incapable of self-support because of a Developmental Disability or Physical Handicap. The Member must apply for this continuation within 31 days after the child reaches the maximum age.

Termination of Insurance While Outside of the United States

A Member's Dependents will be terminated under the same terms in the Termination of Insurance While Outside of the United States provisions as described on page NBM 5115 O for the Member's insurance.

Continuation

In addition, under certain conditions, the Member's Dependent Medical Expense Insurance may be continued after the date it would normally terminate.

See the continuation provisions described on page NBM 5117 A, NBM 5117 B, NBM 5117 C, and NBM 5117 D.

Contact the Policyholder with reinstatement questions.

- be insured in that class on the date medical Treatment or Service is received; and
- satisfy the requirements listed in the CLAIM PROCEDURES section, page NBM 5146.

Benefits Payable

Benefits payable will be as described in this booklet-certificate, subject to:

- all listed terms, conditions and limitations; and
- the terms, conditions and limitations of Utilization Management Program, Coordination With Other Benefits, Integration With Medicare and Subrogation and Reimbursement.

Benefits Payable – Required by Federal Law

Subject to the benefits payable provisions as described above, benefits will be payable for:

- **Newborns’ and Mothers’ Health Protection Act of 1996**

Under Federal Law, Group Health Plans generally may not restrict benefits for any Hospital length of stay in connection with childbirth for the mother or newborn child to less than 48 hours following a vaginal delivery, or less than 96 hours following a cesarean section. However, Federal law generally does not prohibit the mother’s or newborn’s Physician, after consulting with the mother, from discharging the mother or her newborn earlier than 48 hours (or 96 hours as applicable). In any case, a Group Health Plan may not, under Federal law, require that a provider obtain authorization from the Group Health Plan for prescribing a length of stay not in excess of 48 hours (or 96 hours).

See “Maternity Coverage” under Benefits Payable - State-Required - Pennsylvania below for description of how benefits will be payable under the Group Policy.

- **Pediatric Vaccines**

Covered Charges will include the cost of Pediatric Vaccines administered to a Dependent Child from birth through 18 years of age.

Pediatric Vaccines mean those vaccines shown on the list established and periodically reviewed by the Advisory Committee on Immunization Practices as referenced by Section 1928 of Title 19 of the Social Security Act or such other list of vaccines as mandated by other Federal or State laws that are applicable to the Group Policy.

Benefits for Pediatric Vaccines will be paid at 100% of Prevailing Charges and no Deductible will be applied.

- **Women’s Health and Cancer Rights Act of 1998**

Under Federal law, group health plans and health insurance issuers providing benefits for mastectomy must also provide, in connection with the mastectomy for which the Insured Person is receiving benefits, coverage for:

- all stages of reconstruction of the breast on which the mastectomy has been performed, including nipple and areola reconstruction as well as nipple and areola repigmentation to restore the physical appearance of the breast;
- surgery and reconstruction of the other breast to produce a symmetrical appearance; and

- prostheses and physical complications of mastectomy, including lymphedemas;

in a manner determined in consultation between the attending Physician and the Insured Person.

- **Preventive Health and Wellness Services**

Preventive Health and Wellness Services from PPO Providers will be covered in accordance with guidelines from the following organizations:

- U.S. Preventive Services Task Force;
- Health Resources and Services Administration; and
- Advisory Committee on Immunization Practices of the Centers for Disease Control and Prevention.

Preventive Health and Wellness Services can be found at: www.healthcare.gov/.

Preventive Health and Wellness Services from PPO Providers will be payable at 100% and no Deductible will apply. Benefits for Preventive Health and Wellness Services are not payable when received from Non-PPO Providers.

The Company may use reasonable medical management techniques to determine appropriate frequency, method or setting for a Preventive Health and Wellness Service to the extent such service is not specified in the guidelines or recommendations.

- **Contraceptive Methods and Counseling for Women**

Covered Charges from a Member Pharmacy or PPO Provider will include charges incurred by a woman covered under the Group Policy for all Food and Drug Administration approved contraceptive methods, sterilization procedures, and patient education and counseling for all women with reproductive capacity.

Benefits for Covered Charges from a Member Pharmacy or PPO Provider for generic and single source contraceptive drugs will be payable at 100%. Benefits for Covered Charges from a Member Pharmacy or PPO Provider for brand name contraceptive drugs will be payable the same as any other covered Treatment or Service and will be subject to cost-sharing. Some or all of the above services may not be payable when received from a Non-Member Pharmacy or Non-PPO Providers. The above services from Non-PPO Providers will be subject to Deductible and coinsurance.

- **Clinical Trials**

Covered Charges will include charges incurred for routine patient care costs in connection with an Approved Clinical Trial. Benefits will be payable the same as any other covered Treatment or Service.

For the purposes of this section, routine patient costs include medically necessary Treatment or Service provided to a Qualified Individual in relation to cancer or other Life-Threatening Condition that are considered Covered Charges consistent with benefits provided under the Group Policy for an Insured Person not enrolled in an Approved Clinical Trial. Routine patient costs do not include:

- Experimental or Investigational Measures (the investigational item, device, or service, itself);
- Treatment or Service provided solely to satisfy data collection and analysis needs and that are not used in the direct clinical management of the Qualified Individual; or
- Treatment or Service that is clearly inconsistent with Generally Accepted and established standards of care for a particular diagnosis.

The Company may require a Qualified Individual to participate in an Approved Clinical Trial conducted in-network through a PPO Provider, if the PPO Provider participates in the trial and will accept the Qualified Individual in the trial. This does not preclude a Qualified Individual from participating in an Approved Clinical Trial conducted out-of-network through a Non-PPO Provider; however, in that circumstance, benefits will be paid at the non-PPO level.

“Approved Clinical Trial” means a phase I, phase II, phase III, or phase IV clinical trial that is conducted in relation to the prevention, detection, or treatment of cancer or other Life-Threatening Condition; and

- the study or investigation is federally approved or funded (which may include funding through in-kind contributions) by one or more of the following:
 - the National Institutes of Health;
 - the Centers for Disease Control and Prevention;
 - the Agency for Health Care Research and Quality;
 - the Centers for Medicare & Medicaid Services;
 - a cooperative group or center of any of the above named entities or the Department of Defense or the Department of Veterans Affairs;

- a qualified non-governmental research entity identified in the guidelines issued by the National Institutes of Health for center support grants; or
- the Department of Veterans Affairs, the Department of Defense, or the Department of Energy provided the study or investigation has been reviewed and approved through a system of peer review that the Secretary determines:
 - to be comparable to the system of peer review of studies and investigations used by the National Institutes of Health; and
 - assures unbiased review of the highest scientific standards by qualified individuals who have no interest in the outcome of the review; or
- the study or investigation is conducted under an investigational new drug application reviewed by the Food and Drug Administration; or
- the study or investigation is a drug trial that is exempt from having such an investigational new drug application.

“Life-Threatening Condition” means any disease or condition from which the likelihood of death is probable unless the course of the disease or condition is interrupted.

“Qualified Individual” means an Insured Person who is eligible to participate in an Approved Clinical Trial according to the trial protocol with respect to treatment of cancer or other Life-Threatening Condition; and

Payment, Denial and Review

Any transaction at a pharmacy for prescription drug benefits is not a claim for benefits under the Employee Retirement Income Security Act (ERISA). To file a claim for benefits when utilizing a Member Pharmacy, contact the Pharmacy Benefit Manager at the telephone number listed on the identification card or contact the Company. To file a claim for benefits when utilizing a Nonmember Pharmacy or when an identification card is not utilized at a Member Pharmacy, submit a prescription drug claim form to the Pharmacy Benefit Manager.

Written proof of loss must be sent to the Pharmacy Benefit Manager or the Company within 90 calendar days after the date of loss. For purposes of satisfying the claim processing requirements, receipt of claim will be considered to be met when the Pharmacy Benefit Manager or the Company receives proof of loss. Proof of loss includes the patient's name, the Member's name (if different from the patient's name), prescription drug name, and date prescription drug dispensed. The Pharmacy Benefit Manager or the Company may request additional information to substantiate the loss or require a Signed unaltered authorization to obtain that information from the provider. Failure to comply with the Company's request or the request of Pharmacy Benefit Manager could result in declination of the claim.

The Employee Retirement Income Security Act (ERISA) permits up to 30 calendar days from receipt of claim for processing the claim. If a claim cannot be processed due to incomplete information, the Pharmacy Benefit Manager or the Company will send a Written explanation prior to the expiration of the 30 calendar days. The claimant is then allowed up to 45 calendar days to provide all additional information requested. The Pharmacy Benefit Manager or the Company will render a decision within 15 calendar days of either receiving the necessary information or upon the expiration of 45 calendar days if no additional information is received.

In actual practice, benefits under the Group Policy may be payable sooner, provided the Pharmacy Benefit Manager or the Company receives complete and proper proof of loss. If a claim is not payable or cannot be processed, the Pharmacy Benefit Manager or the Company will submit a detailed explanation of the basis for its denial. See page NBM 5407 GP for the Complaint and Grievance Procedures.

For purposes of this section, "claimant" means the Insured Person.

UTILIZATION MANAGEMENT PROGRAM

In order to monitor the use of inpatient health care services, services within specialized facilities, and other kinds of medical treatment, this plan has a Utilization Management program which will promote efficiency and cost containment. Utilization Review procedures are used to evaluate the necessity and appropriateness of services while maintaining quality of care.

- Utilization Management Requirements - Applicable to medical care received from a PPO Provider or a Non-PPO Provider

- For Hospital Inpatient Confinement Charges and charges for services provided in an inpatient confinement facility, a Precertification is requested from the Company by the Insured Person or a designated patient representative as soon as a Hospital Inpatient Confinement or confinement in an inpatient confinement facility is scheduled, but no later than the day of a Hospital Inpatient Confinement or confinement in an inpatient confinement facility, for other than Emergency Services. Precertification is not a guarantee that benefits will be payable.

Benefits will be payable only for that part of the Hospital Inpatient Confinement Charges or inpatient confinement facility charges that the Company determines to be a Covered Charge.

An inpatient confinement facility includes:

- Hospital;
- Skilled Nursing Facility;
- Rehabilitation hospital;
- Hospice;
- Long term acute care facility;
- Gene-Based, Cellular And Other Innovative Therapies (GCIT) facility/provider;
- Psychiatric Hospital or psychiatric unit of a general hospital for Mental Health and Behavioral Treatment Services;
- Inpatient Alcohol or Drug Abuse Treatment Facility or drug or alcohol unit of a general hospital or any other facility required by state law to be recognized as a treatment facility under the Group Policy for Alcohol and Drug Abuse Treatment Services;
- Residential treatment center or facility.

Certain exceptions apply to Hospital Inpatient Confinement for childbirth as described below.

- For Emergency Services admissions, the Insured Person or a designated patient representative must contact the Company within two business days of a Hospital Inpatient Confinement or of a confinement in an inpatient confinement facility. Precertification is not a guarantee that benefits will be payable.
- For selected outpatient non-emergency medical services, the Insured Person or a designated patient representative must contact the Company 15 calendar days before the care is provided, or the Treatment or Service is scheduled. Precertification is not a guarantee that benefits will be payable.

Outpatient services requiring Precertification generally include, but are not limited to the following:

- Complex imaging, including but not limited to MRI, MRA, CT-PET SCANS, and IMRT;
- Certain cosmetic and reconstructive surgery, including but not limited to breast related procedures, varicose vein procedures, septoplasty, blepharoplasty, and abdominoplasty;
- Back surgery, including but not limited to artificial discs, laminectomy, lumbar fusion, facet joint injection;
- Certain selective surgery, including but not limited to hysterectomy, bariatric surgery, and stereotactic radiosurgery; and
- Gene-Based, Cellular And Other Innovative Therapies (GCIT) facility/provider.

The above list of outpatient services are representative of common procedures requiring Precertification, however they are subject to change. For a current list of outpatient services requiring Precertification, please see the Nippon Life Insurance Company of America website at www.nipponlifebenefits.com. Please be aware that some outpatient services while not requiring Precertification may nevertheless be subject to medical necessity reviews to determine whether it is a Covered Charge.

- **Precertification - Applicable to medical care received from PPO Providers or Non-Preferred Providers**

A Precertification by the Company is required for all Hospital Inpatient Confinements or inpatient facility confinements and selected outpatient procedures. Precertification is not a guarantee that benefits will be payable.

Precertification requires a review by the Company of a Physician's report of the need for selected outpatient procedures or a Hospital Inpatient Confinement or confinement in an inpatient confinement facility, (unless it is for an automatically approved Hospital Inpatient Confinement for childbirth).

The report (verbal or Written) must include the:

- reason(s) for the Hospital Inpatient Confinement or confinement in an inpatient confinement facility or outpatient procedure; and
- significant symptoms, physical findings, and treatment plan; and
- procedures performed or to be performed on an outpatient basis or during the Hospital Inpatient Confinement or confinement in an inpatient confinement facility; and
- estimated length of the Hospital Inpatient Confinement or confinement in an inpatient confinement facility, if applicable.

If a Hospital Inpatient Confinement or confinement in an inpatient confinement facility will exceed the approved number of days, the Company will initiate a Continued Stay Review. For the purpose of these requirements, **Continued Stay Review** means a review by the Company of a Physician's report of the need for continued Hospital Inpatient Confinement or confinement in an inpatient confinement facility.

The report (verbal or Written) must include the:

- reason(s) for requesting continued Hospital Inpatient Confinement or confinement in an inpatient confinement facility; and
- significant symptoms, physical findings, and treatment plan; and
- procedures performed or to be performed during the Hospital Inpatient Confinement or confinement in an inpatient confinement facility; and
- estimated length of the continued Hospital Inpatient Confinement or confinement in an inpatient confinement facility.

Charges incurred for room, board and other usual services, including Physician Visits, that are in excess of those approved by the Company for Inpatient Hospital Confinement or confinement in an inpatient confinement facility will not be considered Covered Charges.

The following exception applies to Hospital Inpatient Confinement for childbirth.

Covered Charge requirements are waived and a Precertification is not required for mother and baby, for:

- A 48-hour Hospital Inpatient Confinement following vaginal delivery; or
- A 96-hour Hospital Inpatient Confinement following cesarean section.

A request for review by the Company of the need for continued Hospital Inpatient Confinement for mother or baby beyond the automatically approved time period stated above must be made by the Insured Person or a designated patient representative before the end of that time period.

Except as waived above, no benefits will be payable for any Treatment or Service that is not a Covered Charge.

If Precertification is denied the Insured Person or a designated patient representative has the right to request an appeal review.

When an Insured Person has health care insurance under more than one plan, the Precertification requirements do not apply when the Company will pay as a secondary plan as described in page NBM 5156 Coordination With Other Benefits.

- Definitions Applicable to the Utilization Management Program

Concurrent Review

Utilization Review conducted during an Insured Person's Hospital stay or course of treatment.

Continued Stay Review

A review by the Company of a Physician's report of the need for continued Hospital Inpatient Confinement or confinement in an inpatient confinement facility to determine if the continued stay is a Covered Charge.

Health Professional

An individual who:

- has undergone formal training in a health care field;
- holds an associate or higher degree in a health care field, or holds a state license or state certificate in a health care field; and
- has professional experience in providing direct patient care.

Initial Clinical Review(er)

Clinical review conducted by appropriate licensed or certified Health Professionals. Initial Clinical Review staff may approve requests for admissions, procedures, and services that meet clinical review criteria, but must refer requests that do not meet clinical review criteria to a Peer Clinical Reviewer for certification or Adverse Benefit Determination.

Notification of Utilization Review Services

Receipt of necessary information to initiate review of a request for Utilization Review services to include the Insured Person's name and the Member's name (if different from Insured Person's name), attending Physician's name, treatment facility's name, diagnosis, and date of service.

Ordering Provider

The Physician or other provider who specifically prescribes the health care service being reviewed.

Peer Clinical Review(er)

Clinical review conducted by a Physician or other Health Professional when a request for an admission, procedure, or service was not approved during the Initial Clinical Review.

In the case of an appeal review, the Peer Clinical Reviewer is a Physician or other Health Professional who holds an unrestricted license and is in the same or similar specialty as typically manages the medical condition, procedures, or treatment under review. Generally, as a peer in a similar specialty, the individual must be in the same profession, i.e., the same licensure category as the Ordering Provider.

Precertification

A review by the Company of a Physician's report before certain services are provided, such as a Hospital Inpatient Confinement or a confinement in an inpatient confinement facility (unless it is for an automatically approved Hospital Inpatient Confinement for childbirth) or selected outpatient procedures to determine whether the services being recommended are considered Covered Charges. Precertification is not a guarantee that benefits will be payable.

Prospective Review

Utilization Review conducted prior to an Insured Person's stay in a Hospital or other health care facility or course of treatment, including any required preauthorization or Precertification.

Retrospective Review

Utilization Review conducted after the Insured Person is discharged from a Hospital or other health care facility or has completed a course of treatment.

Urgent Review

Utilization Review that must be completed sooner than a Prospective Review in order to prevent serious jeopardy to an Insured Person's life or health or the ability to regain maximum function, or in the opinion of a Physician with knowledge of the Insured Person's medical condition, would subject the Insured Person to severe pain that cannot be adequately managed without treatment. Whether or not there is a need for an Urgent Review is based upon the Company's determination using the judgment of a prudent layperson who possesses an average knowledge of health and medicine. An Insured Person's provider should not request an Urgent Review for a situation in which the provider or Insured Person has had adequate time to request standard Precertification.

Utilization Management

The administration of Utilization Review procedures, such as Precertification of hospital admissions and inpatient confinements, monitoring services during a course of treatment, discharge planning, peer reviews, case management and appeals.

Utilization Review

The evaluation of the clinical necessity, appropriateness, efficacy or efficiency of health care services, procedures, providers, or facilities according to a set of formal techniques and guidelines.

The notification will include the basis and clinical rationale for the decision.

- **Request for Reconsideration**

When an initial decision is made not to certify an admission or other service and no peer-to-peer conversation has occurred, the Peer Clinical Reviewer that made the initial decision will be made available within one (1) business day to discuss the Adverse Benefit Determination decision with the attending Physician or other Ordering Provider upon their request. If the original Peer Clinical Reviewer is not available, another Peer Clinical Reviewer will be made available to discuss the review.

At the time of the conversation, if the reconsideration process is unable to resolve the difference of opinion regarding a decision not to certify, the attending Physician or other Ordering Provider will be informed of the right to initiate an appeal and the procedure to do so. The notification will include the basis and clinical rationale for the decision.

The Company will allow a claimant to review the claim file and to present evidence and testimony as part of the internal claims and appeal process.

The Company will provide the claimant, free of any charge, with any new or additional evidence considered, relied upon, or generated by the Company in connection with the claim. The evidence will be provided in advance of the date on which the notice of final internal Adverse Benefit Determination is required to be provided. - three weeks from the date the new or additional rationale was mailed to the claimant.

- **Expedited Appeal Review and Voluntary Appeal Review**

An expedited appeal review is a request, usually by telephone but can be Written, for a review of a decision not to certify an Urgent Review. An expedited appeal review must be requested within 180 calendar days of the receipt of an Adverse Benefit Determination.

A decision and notification of the decision on the expedited appeal of an Urgent Review decision will be made within 48 hours from request of an expedited appeal review. Written or electronic notification of the appeal review outcome will be made to the attending Physician or other Ordering Provider and the Insured Person.

If the Adverse Benefit Determination is affirmed on the appeal review, the Insured Person, attending Physician, or other Ordering Provider can request an external review or a voluntary appeal review. The voluntary appeal review may be requested by telephone, fax or in Writing within 60 calendar days of the receipt of the appeal review Adverse Benefit Determination. The Insured Person, attending Physician or other Ordering Provider may submit Written comments, documents, records and other information relating to the request for the voluntary appeal review. The Company will make a decision within 72 hours of request for a voluntary appeal review.

Election of a second appeal is voluntary and does not negate the Insured Person's right to an external review, nor does it have any effect on the Member or the Insured Person's rights to any other benefit under the Group Policy. The Company offers the voluntary appeal review process in an effort that the claim may be resolved in good faith without legal intervention. At any time during the second appeal process, the Insured Person may request an external review.

Note: The expedited appeal process does not apply to Retrospective Reviews.

- **Standard Appeal Review and Voluntary Appeal Review**

A standard appeal may be requested in Writing. It must be requested within 180 calendar days of the receipt of an Adverse Benefit Determination. A final internal Adverse Benefit Determination will be made within 30 calendar days of receiving the request for an appeal. Written notification regarding the decision will be sent to the Insured Person, the attending Physician or other Ordering Provider within five (5) business days of the decision. The notification will include the basis for the decision and the procedure to file a request for a second level review of the decision.

If the Adverse Benefit Determination is affirmed on the appeal review, the Insured Person can request an external review or a voluntary appeal review. The voluntary appeal review may be requested by fax or in Writing. The review will be conducted by a second level review committee consisting of three or more persons who did not participate in the initial review. In addition, Written notification must be sent to the Insured Person, the attending Physician or other Ordering Provider advising him or her of the right to appear before the second level review committee. The Insured Person may submit Written comments, documents, records and other information relating to the request for voluntary appeal review. The Company will make a decision within 45 calendar days of request for a voluntary appeal review. Written notification of the outcome will be provided to the Insured Person within five (5) business days of the decision. The notice will include the basis for the decision and the procedure for appealing the decision to the department or the Insurance Department.

Election of a second appeal is voluntary and does not negate the Insured Person's right to external review, nor does it have any effect on the Member or the Insured Person's rights to any other benefit under the Group Policy. The Company offers the voluntary appeal review process in an effort that the claim may be resolved in good faith without legal intervention. At any time during the second appeal process, the Insured Person may request an external review.

- **Notice of Utilization Review**

For purposes of satisfying the claims processing requirements, receipt of claim will be considered to be met when the Company receives Notification of Utilization Review Services.

At any time during the Voluntary Appeal Review process, the Insured Person may request an external review.

In an Expedited Appeal Review, all necessary information, including the Company's decision, will be transmitted between the Company and the Insured Person or the provider acting on behalf of the Insured Person by telephone, facsimile or other available similarly expeditious method.

The notice will also include the process for making such request. With respect to the external review process, an Adverse Benefit Determination shall only include those determinations that involve medical judgment, including, but not limited to: medical necessity; appropriateness; experimental/investigational; health care setting; level of care, or effectiveness of a covered benefit; and rescissions of coverage.

The Insured Person will have 4 months after the date of the final internal Adverse Benefit Determination to request an external review.

Upon receipt of a notice to reverse the adverse or final determination, the Company will immediately approve the coverage that was the subject of the external review, consistent with the independent review organization's determination. The independent review organization's decision is binding on the Insured Person and the Company; except to the extent that other remedies may be available under State or Federal law.

Expedited External Review

The Insured Person may request an expedited external review. This may be done at any time following receipt of an Adverse Benefit Determination (even if the person has not exhausted the internal appeal process), if the Insured Person has a medical condition where the time-frame for completion of a standard external review would seriously jeopardize the Insured Person's life or health or ability to regain maximum function. An expedited review will be completed by the independent review organization and the Company will notify the Insured Person or authorized representative of the independent review organization's decision within 72 hours after the date of receipt of the request.

An expedited external review does not apply to Retrospective Reviews.

Preliminary Review

Within 5 business days of receipt of the request for an external review (or immediately in the case of a request for an expedited external review); the Company will determine whether:

- The Insured Person had coverage at the time the service was provided or requested;
- External review is available based on the reason for the Adverse Benefit Determination;
- The Insured Person exhausted the standard appeals process, if required; and
- The Insured Person provided all information needed to process the external review.

Within 1 business day of the preliminary review determination (or immediately in the case of a request for an expedited external review), the Company will send written notice to the Insured Person, attending Physician, or other Ordering Provider as to whether the request has been accepted. If the Insured Person is not eligible for external review, the written notice will explain the reason for the ineligibility and provide contact information for the Employee Benefits Security Administration. If the request for external review is not complete, the written notice will describe the information or materials needed and will give the Insured Person until the end of the 4 month period or 48 hours, whichever is later, to provide such information or materials. Written notice of the final external review decision will be provided to the Insured Person, attending Physician, or other Ordering Provider within 45 calendar days of receipt of all necessary information or materials.

MEDICAL EXPENSE COVERAGE

EXTENDED BENEFITS (after termination of insurance)

Extended benefits are payable if insurance ceases due to termination of the Group Policy.

Extended benefits will be payable for up to 12 months, provided:

- the Insured Person has been Totally Disabled from the date insurance ceased until the date of Treatment or Service; and
- the Insured Person would have qualified for benefit payment under this section if insurance had remained in force; and
- the sickness or injury for which the Insured Person receives Treatment or Service is the disabling condition and was diagnosed by a Physician before the date insurance terminated.

These extended benefits are payable whether or not the Group Policy is replaced. However, if the Group Policy is replaced, the extended benefits will cease on the earlier of:

- the date 12 months after the date insurance terminates; or
- the date the succeeding carrier provides replacement coverage to the Insured Person without limitation as to the disabling condition.

MEDICAL EXPENSE INSURANCE

INDIVIDUAL PURCHASE RIGHTS

If a Member's Medical Expense Insurance terminates and the Member has been continuously insured under the Group Policy (or for similar benefits under any group policy which it replaces) for at least the three-month period immediately prior to the date insurance terminates, the Member may buy other medical expense insurance from the Company. Except that, the Member may not buy other medical expense insurance if his or her Medical Expense Insurance terminates because:

- the Member failed to pay any required contribution; or
- the Group Policy terminates and continuous coverage is provided under a replacement group medical expense coverage within 31 days; or
- the Member's continuation of insurance ends as provided in the Group Policy and such continuation ends because the Member:
 - fails to pay any required premium; or
 - becomes covered under other group medical expense coverage.

A statement of health will not be required. The other coverage will be on one of the forms the Company issues to persons who apply for individual purchase.

NOTE: The benefits provided under the conversion policy are not the same as the benefits provided under the Group Policy; however, maternity coverage will be included in the converted policy if maternity benefits are included in the existing Group Policy. Specific details regarding the terms of the conversion policy may be obtained from the Company or from the Policyholder.

The persons to be covered under the other medical expense insurance will be Insured Persons who are covered under the Group Policy on the date insurance ceases, except that any Developmentally Disabled or Physically Handicapped child beyond the maximum age for Dependent Children will be covered as provided in the last paragraph.

The Company will not issue other medical expense insurance if the Member is covered by similar coverage which, together with this coverage, may result in overinsurance based on Company standards for overinsurance.

Written notice of the individual purchase right and its duration must be given to the Member by the Policyholder within 15 days before or after insurance under the Group Policy terminates. If such notice is given more than 15 days but less than 90 days after the date of termination of the Group Policy, the time allowed to apply for conversion will be extended for 15 days after the giving of such notice. If such notice is not given within 90 days after the date of termination of the Group Policy, the time allowed to apply for the conversion privilege will expire at the end of such 90 days. Unless notice is delayed as described above, the Member must apply for individual purchase and pay the first premium to the Company within 31 days after insurance under the Group Policy is terminated. The premium the Member pays will be at the Company's normal rate for the Member's age and for the risk class to which the Member belongs. Contact the Policyholder for the proper forms. The other medical expense insurance will then be in force on the day after that termination date.

The Member's spouse may buy other medical expense insurance in the same manner as described above for the Member, if insurance under the Group Policy ceases for the Member's spouse because:

- of the Member's death; or
- of divorce or legal separation from the Member; or
- continuation ends as provided in the Group Policy, for a Member's spouse, unless continuation ends because the spouse:
 - fails to pay any required premium; or
 - becomes covered under other group medical expense coverage.

A Dependent Child may also buy other medical expense insurance in the same manner as described above for the Member, if insurance under the Group Policy ceases for the Dependent Child because:

- the child is no longer eligible as a Dependent; or
- continuation ends as provided in the Group Policy, unless continuation ends because the Dependent Child:
 - fails to pay any required premium; or
 - becomes covered under other group medical expense coverage.

A Dependent Child beyond the maximum age for Dependent children, who is incapable of self-support because of a Developmental Disability or Physical Handicap may also buy other medical expense insurance in the same manner as described above for the Member, if the Dependent Child's insurance under the Group Policy ceases because the Member's insurance terminates as described above.

NOTE: Individual Purchase is also available at the end of any continuation period, provided the person is not then covered for similar coverage which, together with this coverage, may result in overinsurance based on Company standards for overinsurance.

If the Policyholder offers coverage under an HMO as an alternative to this coverage, these Individual Purchase Rights will not apply to any person who is covered by an HMO on the date insurance terminates or to any person who becomes covered by an HMO within 31 days after this insurance terminates.

MEDICAL EXPENSE INSURANCE

COORDINATION WITH OTHER BENEFITS

Applicability

These Coordination of Other Benefits (COB) provisions apply to This Plan when an Insured Person has health care insurance under more than one Plan. "Plan" and "This Plan" are defined below.

If the COB provision applies, the order of benefit determination rules should be looked at first. Those rules determine whether the benefits of This Plan are determined before or after those of another plan. The benefits of This Plan:

- will not be reduced when, under the order of benefit determination rules, This Plan determines its benefits before another plan; but
- may be reduced when, under the order of benefits determination rules, another plan determines its benefits first.

Benefits paid under all other Plans plus the sum of benefits paid under the Group Policy will not exceed the lesser of the financial liability of the Insured Person or the Prevailing Charge for a Treatment or Service.

Definitions

"Plan" is any of these which provides benefits or services for, or because of, medical care or treatment:

- * - any insured or noninsured group, service, prepayment, or other program arranged through an employer, trustee, union, or association; and
- ** - any program required or established by state or Federal law (including Medicare Parts A and B and C); and
- any program sponsored by or arranged through a school or other educational agency; and
- the first-party medical expense provisions of any automobile policy issued under a no-fault insurance statute and traditional fault-type contracts, including the self-insured equivalent of any minimum benefits required by law.
- * In the event a husband and wife are both employed by the Policyholder, each Plan will be considered a separate Plan with respect to these coordination of benefits provisions. The amount payable will not be more than 100% of the actual cost charged for Treatment or Service.
- ** Not applicable to persons subject to the INTEGRATION WITH MEDICARE provisions as described in page NBM 5157.

The term Plan will not include benefits provided under a student accident policy, nor will the term Plan include benefits provided under a state medical assistance program where eligibility is based on financial need.

"This Plan" is the medical expense benefits described in this booklet-certificate.

Primary Plan/Secondary Plan: The order of benefit determination rules determine whether This Plan is a "Primary Plan" or a "Secondary Plan" when compared to another Plan covering the person.

When This Plan is Primary, its benefits are determined before those of any other Plan and without considering any other Plan's benefits. When this Plan is Secondary, its benefits are determined after those of another Plan and may be reduced because of the Primary Plan's benefits.

Allowable Expense: A health care service or expense, including Deductibles, coinsurance, and Copayments, if any, that is covered at least in part by any of the Plans covering the person for whom benefits are claimed. When a Plan provides benefits in the form of services (for example an HMO), the reasonable cash value of each service will be considered an allowable expense and a benefit paid. An expense or service that is not covered by any of the plans is not an allowable expense. The following are examples of expenses or services that are not allowable expenses:

- If an Insured Person is confined in a private Hospital room, the difference between the cost of a semi-private room in the Hospital and the private room, (unless the Insured Person's stay in a private Hospital room is medically necessary in terms of Generally Accepted medical practice, or one of the Plans routinely provides coverage for Hospital private rooms) is not an Allowable Expense.
- The amount a benefit is reduced by the Primary Plan because an Insured Person does not comply with the Plan provisions. Examples of these provisions are precertification of admissions and preferred provider arrangements.

Claim Determination Period means the part of a Calendar Year during which an Insured Person would receive benefit payments under This Plan if this section were not in force.

Effect on Benefits

Benefits otherwise payable under This Plan for Allowable Expenses during a Claim Determination Period may be reduced if:

- benefits are payable under any other Plan for the same Allowable Expenses; and
- the rules listed below provide that benefits payable under the other Plan are to be determined before the benefits payable under This Plan.

The reduction will be the amount needed to provide that the sum of payments under This Plan plus benefits payable under the other Plan(s) is not more than the total of Allowable Expenses. Each benefit that would be payable in the absence of this section will be reduced proportionately. Any such reduced amount will be charged against any applicable benefit limit of this Plan.

For this purpose:

- benefits payable under other Plans will include the benefits that would have been paid had claim been made for them;
- ** - for any person covered by Medicare Part A, benefits payable will include benefits provided by Medicare Part B and C whether or not the person is covered under that Part B and C.

**Not applicable to persons subject to the INTEGRATION WITH MEDICARE provisions as described in page NBM 5157.

Order of Benefit Determination

General. Except as described below under Medicare Exception, the benefits payable of a Plan that does not have a coordination of benefits provision similar to the provision described in this section will be determined before the benefits payable of a Plan that does have such a provision. In all other instances, the order of determination will be:

Rules. This Plan determines its order of benefits using the first of the following rules which applies:

- **Non-Dependent/Dependent.** The plan which covers the person as an employee, Member, or subscriber (that is, other than as a Dependent) are determined before those of the plan which covers the person as a Dependent. Exception: If the person is also a Medicare beneficiary, and as a result of the rule established by Title XVIII of the Social Security Act and implementing regulations, Medicare is:
 - Secondary to the Plan covering the person as a Dependent and
 - Primary to the Plan covering the person as other than a Dependent (e.g. a retired employee).

Then the benefits of the Plan covering the person as a Dependent are determined before those of the Plan covering that person as other than a Dependent. This provision is not applicable to persons subject to the INTEGRATION WITH MEDICARE provisions as described in page NBM 5157.

- **Dependent Child--Parents Not Separated or Divorced.** If a child is covered by both parents' Plans, the Plan of the parent whose birthday falls earlier in the Calendar Year will be determined before those of the Plan of the parent whose birthday falls later in that year. But, if both parents have the same birthday or if the other Plan does not have a birthday rule, and as a result the Plans do not agree on the order of benefits, the benefits of the Plan which covered a parent longer are determined before those of the Plan which covered the other parent for a shorter period of time.

However, if the other Plan does not have the rule described above, but instead has a rule based upon the gender of the parent, and if, as a result, the Plans do not agree on the order of benefits, the rule in the other Plan will determine the order of benefits.

- **Dependent Child--Separated or Divorced Parents.** If a child of legally separated or divorced parents is covered under two or more Plans, benefits for the child are determined in this order:
 - first, the Plan of the parent with custody of the child;
 - then, the Plan of the spouse of the parent with custody of the child; and
 - finally, the Plan of the parent not having custody of the child.

However, if the specific terms of a court decree state that one of the parents is responsible for the health care expenses of the child, and the entity obligated to pay or provide the benefits of the Plan of that parent has actual knowledge of those terms, the benefits of that Plan are determined first. This paragraph does not apply for any Claim Determination Period or Plan year during which any benefits are actually paid or provided before the entity has that actual knowledge.

- **Joint Custody.** If the specific terms of a court decree state that the parents shall share joint custody, without stating that one of the parents is responsible for the health care expenses of the child, the Plans covering the child shall follow the order of benefit determination rules for Dependent children of parents who are not separated or divorced.
- **Active/Inactive Employee.** The benefits of a Plan which covers a person as an employee who is neither laid-off nor retired are determined before those of a Plan which covers that person as a laid-off or retired employee. The same would hold true if a person is a Dependent of a person covered as a retiree and an employee. If the other Plan does not have this rule, and if, as a result, the Plans do not agree on the order of benefits, this rule will not apply.

- **Continuation of Coverage.** If a person for whom coverage is provided under a right of continuation according to Federal or state law is also covered under another Plan, the following will be the order of benefit determination:
 - first, the benefits of a Plan covering the person as a Member or subscriber (or as that person's Dependent);
 - second, the benefits under the continuation coverage.

If the other Plan does not have the rule described above, and if, as a result, the Plans do not agree on the order of benefits, this rule will not apply.

- **Longer/Shorter Length of Coverage.** If none of the above rules determine the order of benefits, the benefits of the Plan which covered the Member, or subscriber longer are determined before those of the Plan which covered that person for the shorter time.

Medicare Exception

Unless otherwise required by Federal law, benefits payable under Medicare will be determined before the benefits payable under the Group Policy. Federal law will usually apply in such instances if:

- the benefits are applicable to an active Member or to that Member's spouse; and
- the Member's employer has 20 or more employees.

For persons subject to the INTEGRATION WITH MEDICARE provision, the benefits payable under the Group Policy will be directly reduced by Medicare benefits, as described in this booklet-certificate.

Important Note for Members or Dependents eligible for Medicare Part B (or Part C)

Members or Dependents who are eligible for COBRA and who are age 65 or older, or who are disabled, should enroll in Medicare Part B (or Part C) because Medicare is the primary payer for health care expenses. In this instance, the Group Policy pays secondary whether or not the Member or Dependent is actually enrolled in Medicare Part B (or Part C). Therefore, failure to enroll in Medicare Part B (or Part C) will result in significant benefit reductions.

Medicare is the primary payer under other circumstances as well. Please consider medical enrollment options carefully.

How COB Works

Example 1: The natural father is insured as a Member under This Plan. Company A covers the natural mother. Company B covers the stepfather. The natural mother has custody of the child and the divorce decree does not establish financial responsibility for medical, dental, or other health care expenses.

The following order of benefits would apply to the child:

1. Company A would be Primary (mother's carrier).
2. Company B would be Secondary (stepfather's carrier).
3. The Company would then determine the benefits payable, if any, under This Plan.

Example 2A: Mrs. Smith has filed a claim for \$2,400 with both Company A and Company B. Company A insures Mrs. Smith as an employee and Company B insures her as a dependent spouse under a plan. Both plans provide 80% of Covered Charges after a \$200 deductible.

Both plans have a COB provision, therefore, Company A would pay first since it insures Mrs. Smith as an employee. Since Company A pays first, it calculates benefits in full as though duplicate coverage did not exist.

Company A

Billed Charges	\$ 2,400.00
Not Covered By Primary Carrier	\$ 200.00 (Personal Items)
Total Covered Charges	\$ 2,200.00
Company A's Deductible	\$ 200.00
Benefits Payable ($\$2,000 \times 80\% = \$1,600$)	\$ 1,600.00

Once Company A has determined and paid its benefits, Mrs. Smith's claim is then considered by Company B. In calculating its benefit, Company B must include any expenses that would be allowable expenses under the Company A plan.

Company B

Allowable Expenses	\$ 2,200.00
Less Company A Benefits	\$ 1,600.00
Benefits Payable	\$ 600.00

The patient is responsible for \$200 which is not considered a covered expense under either policy.

Example 2B: The same rules apply in this example as they did in Example 2A. Mrs. Smith has filed an additional claim for \$5,000 with both Company A and Company B. Company A insures Mrs. Smith as an employee and Company B insures her as a dependent spouse under a plan. Both plans provide 80% of Covered Charges after a \$200 deductible.

Both plans have a COB provision, therefore, Company A would pay first since it insures Mrs. Smith as an employee. Since Company A pays first, it calculates benefits according to their plans Covered Charges as though duplicate coverage did not exist.

Company A

Billed Charges	\$ 5,000.00
Not Covered By Primary Carrier	\$ 500.00 (Private Room)
Total Covered Charges	\$ 4,500.00
Company A's Deductible	\$ 200.00
Benefits Payable ($\$4,300 \times 80\% = \$3,440$)	\$ 3,440.00

Once Company A has determined and paid its benefits, Mrs. Smith's claim is then considered by Company B. In calculating its benefit, Company B must include any expenses that would be allowable expenses under the Company A plan.

Company B

Allowable Expenses	\$ 4,500.00
Less Company A Benefits	\$ 3,440.00
Benefits Payable By Company B	\$ 1,060.00

The patient is responsible for \$500 which is not considered a covered expense under either policy.

MEDICAL EXPENSE COVERAGE

INTEGRATION WITH MEDICARE

This section will apply to Insured Persons, where permitted by Federal law:

- on the date the Insured Person becomes entitled to Medicare due to their age; and
- who are covered by Medicare Parts A, B and C (or would have been covered if complete and timely application had been made);

Comprehensive Medical benefits payable under the Group Policy for Treatment or Service received will be reduced by:

- the benefits payable for such Treatment or Service by Medicare Parts A, B and C; or
- the benefits that would have been payable for the Treatment or Service by Medicare Parts A, B and C if the Insured Person had been covered by Medicare Parts A, B and C.

MEDICAL EXPENSE INSURANCE

SUBROGATION AND REIMBURSEMENT

Applicability

Subject to applicable law, this section will apply to Insured Persons who:

- receive benefit payment under the Group Policy as a result of a sickness or injury; and
- have a lawful claim against another party, parties, or insurer (including uninsured, underinsured, and no-fault automobile insurers) for compensation, damages, or other payment because of that same sickness or injury.

Transfer of Rights

In those instances where this section applies, the rights of the Insured Person to claim or receive compensation, damages, or other payment from the other party or parties will be transferred to the Company, but only to the extent of benefit payments made under the Group Policy.

Member and Dependent Obligations

To secure the Company's rights under this section, an Insured Person must:

- Complete any applications or other instruments and provide any documents the Company might require, and cooperate with the Company and the Company's agents in order to protect the Company's subrogation rights.
- If payment from the other party or parties has been received, reimburse the Company for benefit payment made under the Group Policy (but not more than the amount paid by the other party or parties.)
- The Insured Person will not take any action that prejudices the Company's rights. If the Insured Person enters into litigation or settlement negotiations regarding the obligations of other parties, the Insured Person must not prejudice, in any way, the Company's subrogation rights under this section.
- The Insured Person or their legal representative agree to hold all settlement funds in trust until the subrogation and/or reimbursement rights of this Group Policy have been satisfied.

The costs of legal representation retained by the Company in matters related to subrogation will be borne solely by the Company. The costs of legal representation retained by the Insured Person will be borne solely by the Insured Person.

CONTINUATION OF COVERAGE – STATE REQUIRED - PENNSYLVANIA

- **Member Medical Expense Insurance - Continuation for Active Duty Reservists (Applicable only to plans that are not subject to COBRA)**

If active employment ceases because the Member is a member of a reserve component of the Armed Forces of the United States, including the National Guard, who voluntarily or involuntarily enters active duty (other than for training), the Policyholder will, at no cost to the Member, continue health insurance and other benefits in effect for at least the first 30 days of the military duty.

After expiration of the first 30 days, the Member may continue coverage under the Group Policy during the period of active duty as described below.

The Member's coverage and coverage for the Member's eligible Dependents may be continued, subject to payment of contributions at the same rate paid by the Policyholder, if, on the date the Member is ordered to active duty:

- the Group Policy is in force; and
- the Member is not eligible for Medicare; and
- the Member is not eligible for coverage under any other group medical expense plan except TRICARE; and
- the Member requests continuation, in writing, within 30 days of being ordered to active duty.

All of the provisions and limitations applicable to active employment for the Member will apply during this continuation period, including the right to purchase other medical expense coverage as described in page NBM 5452.

If the Member qualifies, coverage as set forth above may be continued until the earliest of:

- the date the Group Policy is terminated; or
- the date the Member is eligible for other group medical expense insurance, except TRICARE; or
- the end of any Insurance Month desired, if requested by the Member on or before that date; or
- the date the last premium is paid for the Member's coverage; or
- the date the Member terminates active duty or is discharged after a period of hospitalization incident to such active duty lasting less than one year.

If the Member resumes active employment for the Policyholder upon return to civilian status, coverage for the Member and eligible Dependents will be effective on the date the Member is again actively employed.

If the Member does not resume active employment for the Policyholder upon return to civilian status, the Member may purchase other medical expense insurance as described in page NBM 5452. Application for this other medical expense insurance must be made within 31 days of termination of active duty or discharge after a period of hospitalization incident to such active duty lasting less than one year.

If the Member does not elect to continue this coverage during a period of active duty, the Member's coverage and eligible Dependents coverage will be suspended during the period of active duty, beginning on the 31st day of military duty.

However, the Individual Purchase Rights described in page NBM 5452 will continue to apply to the Member's:

- surviving spouse and children in the event of the Member's death; or
- former spouse in the event a divorce or annulment occurs during the period of active duty; or
- child who ceases to be a Dependent as defined in page NBM 5136.

If the Member elected suspension and then resumes active employment for the Policyholder upon return to civilian status and the Group Policy is still in force, the Member's coverage and eligible Dependents' coverage will be reactivated as of the date of termination of the period of active duty. No waiting period will be applied to the Member or eligible Dependents except:

- completion of a waiting period not satisfied prior to the date of suspension; and
- a condition manifested during the Member's period of active duty which has been determined to have been incurred in the line of duty by the Secretary of Veterans Affairs.

If the Member elected suspension and does not resume active employment for the Policyholder upon return to civilian status and the Group Policy is still in force, the Member may purchase other medical expense insurance as described in page NBM 5452. Application for the other medical coverage must be made within 31 days of the Member's termination of active duty or discharge after a period of hospitalization incident to such active duty lasting less than one year.

- **Dependent Medical Expense Insurance - Continuation for Full-Time Students Who Are Active Duty Reservists (Applicable only to plans that are not subject to COBRA)**

With respect to Full-Time Students who are active duty reservists, the eligibility for coverage under the Member's policy will be extended for a period of time equal to the duration of the Full-Time Student's service on active duty or until the Full-Time Student is no longer a Full-Time Student. The eligibility of the Full-Time Student for coverage under the Member's policy will not terminate because of the age of the Full-Time Student when the Full-Time Student's educational program was interrupted because of military duty.

In order to qualify for this extension, the Member must:

- submit a form approved by the Department of Military and Veterans Affairs notifying the Company that the Full-Time Student has been placed on active duty;
- submit a form approved by the Department of Military and Veterans Affairs notifying the Company that the Full-Time Student is no longer on active duty; and
- submit a form approved by the Department of Military and Veterans Affairs showing that the student has reenrolled as a Full-Time Student for the first term or semester starting 60 or more days after his or her release from active duty.

All of the other provisions and limitations of the Group Policy will apply during this continuation period.

The provisions of this subsection will not apply if the Group Policy has been terminated.

These continuation and suspension provisions for active reservists will not apply if coverage is subject to ERISA or if continuation coverage is available under COBRA or USERRA.

CONTINUATION OF COVERAGE

COBRA CONTINUATION

Federal Required Continuation - Consolidated Omnibus Budget Reconciliation Act (COBRA)

The Consolidated Omnibus Budget Reconciliation Act of 1985 (COBRA) applies to any employer (except the federal government and religious organizations) that: (a) maintains group health coverage; and (b) normally employed 20 or more employees on a typical business day during the preceding calendar year. For this purpose, "employee" means full-time employees and full-time equivalent for part-time employees.

Where applicable, COBRA requires that group health insurance allow qualified persons (described below) to continue group health coverage after it would normally end. The term "group health coverage" includes any medical, dental, vision care, and prescription drug coverages that are part of the insurance.

A. Qualified Persons/Qualifying Events

Continuation of group health coverage must be offered to the following persons if they would otherwise lose that coverage as a result of the following qualifying events:

- (1) A Member, spouse or Dependent Child following the Member's:
 - (a) termination of employment for a reason other than gross misconduct; or
 - (b) a reduction in work hours.

Reduction in work hours includes, but is not limited to, leave of absence, layoff, absence due to sickness or injury, or, when applicable, retirement.

(Note: Taking a family or medical leave under the Federal Family & Medical Leave Act (FMLA) is not a qualifying event under COBRA. A Member has a qualifying event when the Member does not return to work after the end of FMLA leave); and

- (2) a Member's former spouse (and any Dependent Children) following a divorce or legal separation from the Member; and
- (3) a Member's surviving spouse (and any Dependent Children) following the Member's death; and
- (4) a Member's Dependent Child following loss of status as a Dependent under the terms of the Group Policy (e.g., attaining the maximum age, marriage, joining the armed forces, etc.); and
- (5) a Member's spouse (and any Dependent Children) following the Member's entitlement to Medicare; and

- (6) a Member's Dependent Child who is born to or placed for adoption with the Member who is on COBRA continuation due to termination of employment or reduction in work hours; and
- (7) if the Group Policy covers retired Members, a retired Member and his/her spouse or Dependent Child (or surviving spouse or Dependent Child) when retiree health benefits are "substantially eliminated" or terminated within one year before or after the employer files Chapter 11 (United States Code) bankruptcy proceedings.

B. Maximum Continuation Period

Following a qualifying event, health coverage can continue up to the maximum continuation period. The maximum continuation period for a Member (and spouse or Dependent Child) following a termination of employment or reduction in work hours is 18 months from the date of the qualifying event. The maximum continuation period for a Member's Dependent Child that is born to or placed for adoption with the Member while on COBRA continuation will extend to the end of the Member's maximum continuation period.

Following a termination of employment or reduction in work hours, a qualified person may request an 11-month extension of COBRA continuation. The maximum COBRA continuation will be 29 months from the date of the qualifying event (see Disabled Extension, Section D).

When a Member becomes entitled to Medicare before employment terminates or work hours are reduced, the maximum continuation period for the spouse or Dependent Child will be the longer of:

- (1) 36 months dating back to the Member's entitlement to Medicare; or
- (2) 18 months from the date of the qualifying event (termination of employment, or reduction in work hours).

The maximum continuation period for qualified Dependents following a qualifying event described in A (2) through A (5) is 36 months from the date of the qualifying event.

If the Group Policy covers retired Members and the qualifying event is the employer's bankruptcy filing, the following rules apply:

- (1) If the retired Member is alive on the date of the qualifying event, the retired Member and his or her spouse and Dependent Children may continue coverage for the life of the retired Member. In addition, if the retired Member dies while covered under COBRA, the spouse or Dependent Children may continue coverage for an additional 36 months.
- (2) If the retired Member is not alive on the date of the qualifying event, his or her spouse may continue coverage to the date of his or her death.

C. Second Qualifying Events

If during an 18-month continuation period (or, 29 months for qualified persons on the disabled extension), a second qualifying event described in A(2) through A(5) occurs, the maximum continuation period may be extended for the qualified Dependents up to 36 months. That is, following a second qualifying event, qualified Dependents may continue for up to a maximum of 36 months dating from the Member's termination of employment or reduction in work hours. The extension is only available if the second qualifying event described in A(2) through A(5), absent the first qualifying event, results in a loss of coverage for the spouse or Dependent Child under the Group Policy. A Member's Dependent Child who is born to or placed for adoption with the Member who is on COBRA continuation may also be eligible for a second qualifying event that occurred prior to birth or placement for adoption.

D. Disabled Extension

Following a termination of employment or reduction in work hours, a qualified person (Member or spouse or Dependent Child) who has been determined disabled by the Social Security Administration either before or within 60 days after the qualifying event may request an extension of the continued coverage from 18 months to 29 months. A Member's Dependent Child who is born to or placed for adoption with the Member who is on COBRA continuation must be determined disabled by the Social Security Administration within 60 days after the date of birth or placement for adoption. The disabled extension also applies to each qualified person (the disabled person and any family members) who is not disabled and who is on COBRA continuation as a result of termination of employment or reduction in work hours.

The 11-month extension for all qualified persons will end on the earlier of (a) 30 days following the date the disabled person is no longer determined by Social Security to be disabled, or (b) the date continuation would normally end as outlined in Section E below.

E. Termination of Continued Coverage

Continued coverage ends on the earliest of the following:

- (1) The date the maximum continuation period ends; or
- (2) The date the qualified person enrolls in Medicare; however, this does not apply to a person who is already enrolled in Medicare on the date he or she elects COBRA or to a person who is on COBRA due to the employer's bankruptcy filing as described in A(7); or
- (3) The end of the last coverage period for which payment was made if payment is not made prior to the expiration of the grace period. (See Grace Period, Section I.); or
- (4) The date the Group Policy is terminated (and not replaced by another group health plan); or

- (5) The date the qualified person becomes covered by another group health plan; however, this does not apply to a person who is already covered by the other group health plan on the date he or she elects COBRA.

Note: Persons who, after the date of COBRA continuation election, become entitled to Medicare or become covered under another group health plan, are not eligible for continued coverage. However, if the Group Policy covers retired Members, continued coverage for retired persons and their spouse or Dependent Child (or surviving spouse or Dependent Child) due to qualifying event A (7) above may not be terminated due to Medicare coverage.

F. Employer/Plan Administrator Notification Requirement

When a Member or Dependent (spouse or Dependent Child) has a qualifying event due to the Member's termination of employment or reduction in work hours, the death of the Member, the Member's entitlement to Medicare, or if the Group Policy covers retired Members, the commencement of the employer's Chapter 11 (United States Code) bankruptcy proceedings, the employer must notify the plan administrator within 30 days of the date of the qualifying event. The plan administrator must notify the qualified person of the right to COBRA continuation within 14 days after receiving notice of a qualifying event from the employer.

G. Qualified Person Notice and Election Requirements

Qualified persons must notify the plan administrator within 60 days after (a) the date of a qualifying event (i.e., divorce, legal separation, or a child ceases to be a Dependent Child under the terms of the Group Policy); (b) the date the qualified person would otherwise lose coverage as a result of a qualifying event; or (c) the date the qualified person is first informed of this notice obligation; otherwise the right to COBRA continuation ends. This 60-day notice period applies to initial and second qualifying events.

Qualified persons who request an extension of COBRA due to disability must submit a Written request to the plan administrator before the 18-month COBRA continuation period ends and within 60 days after the latest of the following dates: (a) the date of disability determination by the Social Security Administration; (b) the date of the qualifying event; (c) the date the qualified person would otherwise lose coverage as a result of a qualifying event; or (d) the date the qualified person is first informed of this notice obligation; otherwise the right to the disabled extension ends. Qualified persons must also notify the plan administrator within 30 days after the date the Social Security Administration determines the qualified person is no longer disabled.

Notification of a qualifying event to the plan administrator must be in Writing and must include the following information: (a) name and identification number of the Member and each qualified beneficiary; (b) type and date of initial or second qualifying event; (c) if the notice is for an extension due to disability, a copy of any letters from the Social Security Administration and the Notice of Determination; and (d) the name, address and daytime phone number of the qualified person (or legal representative) that the plan administrator may contact if additional information is needed to determine COBRA rights.

Within 14 days after receiving notice of a qualified event from the qualified person, the plan administrator must provide the qualified person with an election notice.

Qualified persons must make Written election within 60 days after the later of: (a) the date group health coverage would normally end; or (b) the date of the plan administrator's election notice. The election notice must be returned to the plan administrator within this 60-day period; otherwise the right to elect COBRA continuation ends.

Each qualified person has an independent right to elect COBRA. A covered Member may elect COBRA continuation on behalf of his/her covered spouse. A covered Member, parent, or legal guardian may elect COBRA continuation on behalf of his/her covered Dependent Children.

To protect COBRA rights, the plan administrator must be informed of any address changes for covered Members and Dependents. Retain copies of any notices sent to the plan administrator.

H. Monthly Cost

Persons electing continued coverage can be required to pay 102% of the cost for the applicable coverage (COBRA permits the inclusion of a 2% billing fee). Persons who qualify for the disabled extension and are not part of the family unit that includes the disabled person can be required to continue to pay 102% of the cost for the applicable coverage during the disability extension. Persons who qualify for the disabled extension and are part of the family unit that includes the disabled person can be required to pay 148% of the cost for the applicable coverage (plus a 2% billing fee) for the 19th through the 29th month of coverage (or through the 36th month if a second qualifying event occurs during the disabled extension).

I. Grace Period

Qualified persons have 45 days after the initial election to remit the first payment. The first payment must include all payments due when sent. All other payments (except for the first payment) will be timely if made within the Grace Period. **Grace Period** means the first 31-day period following a premium due date. Except for the first payment (see Section F), a Grace Period of 31 days will be allowed for payment of premium. Continued coverage will remain in effect during the Grace Period provided payment is made prior to the expiration of the Grace Period. If payment is not made prior to the expiration of the Grace Period, continued coverage will terminate at the end of the last coverage period for which payment was made.

J. Policy Changes

Continued coverage will be subject to the same benefits and rate changes as the Group Policy.

K. Newly Acquired Spouse or Dependent Child

A qualified person may elect coverage for a spouse or Dependent Child acquired during COBRA continuation. All enrollment and notification requirements that apply to the spouse or Dependent Child of active Members apply to the spouse or Dependent Child acquired by qualified persons during COBRA continuation.

Coverage for a newly acquired spouse or Dependent Child will end on the same dates as described for qualified persons in Section B above. Exception: Coverage for newly acquired spouse or Dependent Child, other than the Member's Dependent Child who is born to or placed for adoption with the Member, will not be extended as a result of a second qualifying event.

L. Individual Purchase Rights

When a qualified person is no longer eligible for continued coverage, he/she may apply for Individual Purchase. Persons who are eligible for similar benefits which would result in over-insurance may not purchase conversion coverage. An application for Individual Purchase will be provided 180 days prior to the end of the maximum continuation period. Application for Individual Purchase, and payment of the required premium, must be made within 31 days after the continued coverage ends. Dental, Vision Care, and Prescription Drug coverages are not included with the Individual Purchase Option (however, benefits for prescription drugs are included in the Individual Purchase coverage).

M. Important Note for Members or Dependents eligible for Medicare Part B (or Part C)

Members or Dependents who are eligible for COBRA and who are age 65 or older, or who are disabled, should enroll in Medicare Part B (or Part C) because Medicare is the primary payer for health care expenses. In this instance, the Group Policy pays secondary whether or not the Member or Dependent is actually enrolled in Medicare Part B (or Part C). Therefore, failure to enroll in Medicare Part B (or Part C) will result in significant benefit reductions.

Medicare is the primary payer under other circumstances as well. Please consider medical enrollment options carefully.

FEDERAL FAMILY AND MEDICAL LEAVE ACT (FMLA)

Continuation

Federal law requires that Eligible Employees be provided a continuation period in accordance with the provisions of the Federal Family and Medical Leave Act (FMLA).

This is a general summary of the FMLA and how it affects the Group Policy. Contact the Policyholder for details on this continuation provision.

FMLA and Other Continuation Provisions

If the Policyholder is an Eligible Employer and if the continuation portion of the FMLA applies to the Eligible Employee's coverage, these FMLA continuation provisions:

- are in addition to any other continuation provisions of the Group Policy, if any; and
- will run concurrently with any other continuation provisions of the Group Policy for sickness, injury, layoff, or approved leave of absence, if any.

If coverage under the Group Policy is subject to FMLA or a state continuation law, this continuation period will run concurrent with the FMLA or state continuation period.

Eligible Employer

Eligible Employer means any employer who is engaged in commerce or in any industry or activity affecting commerce who employs 50 or more employees for each working day during each of 20 or more calendar workweeks in the current or preceding Calendar Year.

Eligible Employee (definition for use in this section of the booklet-certificate only)

Eligible Employee means an employee who has worked for the Eligible Employer:

- for at least 12 months; and
- for at least 1,250 hours (approximately 24 hours per week) during the year preceding the start of the leave; and
- at a work-site where the Eligible Employer employs at least 50 employees within a 75-mile radius.

For this purpose, "employs" has the meaning provided by the Federal Family and Medical Leave Act (FMLA).

Mandated Unpaid Leave

Eligible Employers are required to allow 12 workweeks of unpaid leave during any 12-month period to Eligible Employees for one or more of the following reasons:

- the birth of a child of an Eligible Employee and in order to care for the child;
- the placement of a child with the Eligible Employee for adoption or foster care;
- to care (physical or psychological care) for the spouse, child, or parent of the Eligible Employee, if they have a "serious health condition";
- a "serious health condition" that makes the Eligible Employee unable to perform the functions of his or her job; or
- because of a "qualifying exigency" arising out of a spouse, son, daughter or parent on active duty or having been notified of a call to active duty, as applicable to retired regular armed forces members, reserve members, National Guard members, and members in contingency operations, as defined under federal law.

Eligible Employers are required to allow up to a total of 26 workweeks of unpaid leave during any 12 month period to Eligible Employees to care for a "covered service member" with a "serious injury or illness".

Reinstatement

An Eligible Employee's terminated coverage may be reinstated in accordance with the provisions of the Federal Family and Medical Leave Act (FMLA).

Contact the Policyholder for details on this reinstatement provision.

UNIFORMED SERVICES EMPLOYMENT AND REEMPLOYMENT RIGHTS ACT OF 1994 (USERRA)

Federal law requires that if insurance would otherwise end because the Member enters into active military duty or inactive military duty for training, he or she may elect to continue insurance (including Dependents insurance) in accordance with the provisions of Uniformed Services Employment and Reemployment Rights Act of 1994 (USERRA).

Continuation

If active employment ends because the Member enters active military duty or inactive military duty for training, insurance may be continued until the earliest of:

- for the Member and Dependents:
 - the date the Group Policy is terminated; or
 - the end of the premium period for which premium is paid if the Member fails to make timely payment of a required premium; or
 - the date 24 months after the date the Member enters active military duty; or
 - the date after the day in which the Member fails to return to active employment or apply for reemployment with the Policyholder.
- for the Member's Dependents:
 - the date Dependent Medical Expense Insurance would otherwise cease as provided on page NBM 5125; or
 - the end of any Insurance Month desired, if requested by the Member before that date.

The continuation provision will be in addition to any other continuation provisions described in the Group Policy for sickness, injury, layoff, or approved leave of absence, if any. If the Insured Person qualifies for both state and USERRA continuation, the election of one means the rejection of the other.

Reinstatement

For Medical Expense Insurance, the reinstatement time period may be extended for an approved leave of absence taken in accordance with the provisions of the federal law regarding USERRA.

This is a general summary of the USERRA and how it affects the Group Policy. Contact the Policyholder for details on this continuation provision.

CLAIM PROCEDURES

Notice of Claim

Written notice of claim must be given to the Company within 20 days after the date of loss. Failure to give notice within the time specified will not invalidate or reduce any claim if notice is given as soon as reasonably possible.

Claim Forms

Except in the case of medical care received from Preferred Providers, claim forms and other information needed to prove loss must be filed with the Company in order to obtain payment of benefits. The Policyholder will provide forms to assist the Insured Person in filing claims. If the forms are not provided within 15 days after the Company receives such notice of claim, the Insured Person will be considered to have complied with the requirements of the Group Policy regarding proof of loss upon submitting, within the time specified below for filing proof of loss, Written proof covering the occurrence, character and extent of the loss.

Proof of Loss

Completed claim forms and other information needed to prove loss should be filed promptly. Written proof of loss should be sent to the Company within 90 days after the date of loss. Failure to furnish such proof within the time required shall not invalidate nor reduce any claim if it was not reasonably possible to give proof within such time, provided such proof is furnished as soon as reasonably possible and in no event, except in the absence of legal capacity, later than one year from the time proof is otherwise required. For purposes of satisfying the claim processing requirements, receipt of claim will be considered to be met when the Company receives proof of loss. Proof of loss includes the patient's name, the Insured Person's name (if different from patient's name) provider of services, dates of service, diagnosis, description of Treatment or Service provided and extent of the loss. The Company may request additional information to substantiate the Insured Person's loss or require a Signed unaltered authorization to obtain that information from the provider. The Insured Person's failure to comply with such request could result in declination of the claim.

Payment, Denial, and Review

The Employment Retirement Income Security Act (ERISA) permits up to 30 calendar days from receipt of claim for processing the claim. Within 15 working days after receipt by the Company of properly executed proof of loss, the Insured Person will be advised of the acceptance or denial of the claim. If a claim cannot be processed due to incomplete information, the Company will either deny the claim or send a Written explanation requesting information prior to the expiration of the 15 working days. If the investigation remains incomplete, the Company will send the Insured Person a Written explanation of the reason additional time is needed and state when a decision on the claim may be expected, within 30 days from the date of the initial notification and every 45 days thereafter until a decision has been made on the claim. If the Company does not deny the claim and requests additional information to complete the review, the claimant is then allowed up to 45 calendar days to provide all additional information requested. The Company will render a decision within 15 calendar days of either receiving the necessary information or upon the expiration of 45 calendar days if no additional information is received.

In actual practice, benefits will be payable sooner, provided, the Company receives complete and proper proof of loss. If a claim is not payable or cannot be processed, the Company will submit a detailed explanation of the basis for the denial. See page NBM 5407 GP for the Complaint and Grievance Procedures.

For purpose of this section, “claimant” means Member or Dependent.

Medical Examinations

The Company may have the person whose loss is the basis for claim examined by a Physician when and as often as it may reasonably require during the pendency of a claim and to conduct an autopsy in case of death where it is not forbidden by law. The Company will pay for these examinations and will choose the Physician to perform them.

Legal Action

Legal action with respect to a claim may not be started earlier than 60 days after proof of loss is filed and before the appeal procedures have been exhausted. Further, no legal action may be started later than three years after proof is required to be filed.

Time Limits

All time limits listed in this section will be adjusted as required by law.

Recoding of Procedures

When a claim contains one or more procedure codes with the same date of service, the Company may review the claim to determine whether it contains, among other things, coding irregularities (including duplicative or combined codes), coding conflicts or coding errors. The Company will base such review on generally recognized and authoritative coding resources, including but not limited to Current Procedural Terminology (CPT) or Healthcare Common Procedure Coding Systems (HCPCS).

If the Company determines, at its discretion, that the claim may be more appropriately coded using the same or different codes, the claim will be recoded and processed accordingly to determine the allowable amount and extent of benefits.

For Medical Insurance

Preferred Providers

When a person becomes insured, he or she will be issued an identification card. This card should be presented to each Preferred Provider at the time an Insured Person receives needed medical care. The Company will assist the Insured Person with the Precertification.

Benefit Advice

Benefit Advice is the Company's toll-free service that can answer questions about an Insured Person's benefit program or specific coverages. The staff provides information on topics such as outpatient surgery, generic drugs, health care alternatives, health care providers and treatment costs in the Insured Person's area.

The staff does not prescribe medical treatment. That is up to the Insured Person's Physician. But they can help the Insured Person understand his or her benefits and how to use them in the most cost-effective manner.

Call the toll-free Health Info Line number (see the ID card or Policyholder for the Health Info Line number) to discuss medical benefits with the Company's Benefit Advice staff. The number is also listed on page NBM 5100 A in this booklet-certificate.

Precertification - Applies only to Medical Care received from PPO Providers or Non-PPO Providers

If a Hospital Inpatient Confinement or confinement in an inpatient confinement facility is necessary, the Insured Person will need to follow the procedures below in order to qualify for payment of Hospital Inpatient Confinement Charges and charges for services provided in an inpatient confinement facility at the standard rate for his or her Group Policy. The procedures differ depending on the type of Hospital Inpatient Confinement or confinement in an inpatient confinement facility:

- **For Other than Emergency Services**

An Insured Person or a designated patient representative must call the Company at the toll-free number shown on the identification card as soon as Hospital Inpatient Confinement or confinement in an inpatient confinement facility is scheduled, but no later than the day of a Hospital Inpatient Confinement or confinement in an inpatient confinement facility.

- **For Emergency Services**

An Insured Person or a designated patient representative must call the Company at the toll-free number shown on the identification card within two business days of a Hospital Inpatient Confinement or confinement in an inpatient confinement facility.

- **For a Continued Stay Review**

If the Hospital Inpatient Confinement or confinement in an inpatient confinement facility will exceed the approved number of days, the Company will initiate a Continued Stay Review.

- **For Childbirth**

A Precertification is not required for mother and baby for 48 hours following a vaginal delivery or 96 hours following cesarean section.

An Insured Person or a designated patient representative must call the Company at the toll-free number shown on the identification card before the end of the automatically approved time period if the mother or baby will remain Hospital Inpatient Confined beyond that time period.

Notification of the number of approval days will be sent to the Insured Person, his or her Physician, and the Hospital.

Facility of Payment For Medical Insurance

The Company will normally pay all benefits to the Member. However, if the claimed benefits result from a Dependent's sickness or injury, the Company may make payment to the Dependent. Also, in the special instances listed below, payment will be as indicated. All payments so made will discharge the Company to the full extent of those payments.

- If payment amounts remain due upon the Insured Person's death, those amounts may, at the Company's option, be paid to the Insured Person's estate, spouse, child, parent, or provider of medical services.
- If the Company believes a person is not legally able to give a valid receipt for a benefit payment, and no guardian has been appointed, the Company may pay whoever has assumed the care and support of the person.
- Benefits payable to a PPO Provider will be paid directly to the PPO Provider on behalf of the Insured Person.
- Benefits payable to Transplant Network Providers will be paid directly to the Transplant Network Provider.

Binding Arbitration

Any controversy or claim arising out of or relating to this agreement, or the breach thereof, will be determined by final and binding arbitration administered by the American Arbitration Association ("AAA") under its Commercial Arbitration Rules and Mediation Procedures ("Commercial Rules").

- Judgment and Jurisdiction

The award rendered by the arbitrator(s) will be final and binding on the parties and may be entered and enforced in any court having jurisdiction, and any court where a party or its assets is located.

- Selection of Arbitrators

There will be three arbitrators. The parties agree that one arbitrator will be appointed by each party within twenty (20) days of receipt by respondent(s) of the request for arbitration or in default thereof appointed by the AAA in accordance with its Commercial Rules, and the third presiding arbitrator will be appointed by agreement of the two party-appointed arbitrators within fourteen (14) days of the appointment of the second arbitrator or, in default of such agreement, by the AAA.

- **Consolidation, Joinder**

If more than one arbitration is commenced under this agreement and any party contends that two or more arbitrations are substantially related and that the issues should be heard in one proceeding, the arbitrators selected in the first-filed proceeding will determine whether, in the interests of justice and efficiency, the proceedings should be consolidated before those arbitrators. The parties to this agreement are bound to each other by this arbitration clause. Each related party may be joined as an additional party to an arbitration involving other parties under this agreement.

- **Seat of arbitration, Languages**

The seat or place of arbitration will be Pennsylvania. The arbitration will be conducted and the award will be rendered in the English language.

- **Confidentiality**

Except as may be required by law, neither a party nor the arbitrators may disclose the existence, content or results of any arbitration without the prior Written consent of both parties, unless to protect or pursue a legal right.

- **Remedies**

The arbitrators will have no authority to award punitive damages, consequential damages, or liquidated damages.

- **Interim Relief**

The parties also agree that the AAA Optional Rules for Emergency Measures of Protection will apply to the proceedings.

STATEMENT OF RIGHTS

Federal law requires that this section be included in the booklet-certificate:

As a participant in this plan the Member is entitled to certain rights and protections under the Employee Retirement Income Security Act of 1974 (ERISA).

ERISA provides that all plan participants shall be entitled to:

Receive Information About Plan and Benefits

- Examine, without charge, at the plan administrator's office and at other specified locations, such as worksites and union halls, all documents governing the plan, including insurance contracts and collective bargaining agreements, and a copy of the latest annual report (Form 5500 Series) filed by the plan with the U.S. Department of Labor and available at the Public Disclosure Room of the Employee Benefits Security Administration.
- Obtain, upon written request to the plan administrator, copies of documents governing the operation of the plan, including insurance contracts and collective bargaining agreements, and copies of the latest annual report (Form 5500 Series) and updated summary plan description. The administrator may make a reasonable charge for the copies.
- Receive a summary of the plan's annual financial report. The plan administrator is required by law to furnish each participant with a copy of this summary annual report.

Continue Group Health Plan Coverage

Continue health care coverage for the Member, spouse or Dependents if there is a loss of coverage under the plan as a result of a qualifying event. The Member and his or her Dependents may have to pay for such coverage. Review this summary plan description and the documents governing the plan or the rules governing COBRA continuation coverage rights.

Prudent Actions by Plan Fiduciaries

In addition to creating rights for plan participants ERISA imposes duties upon the people who are responsible for the operation of the employee benefit plan. The people who operate the plan, called "fiduciaries" of the plan, have a duty to do so prudently and in the interest of Members and other plan participants and beneficiaries. No one, including the employer, union, or any other person, may fire the Member or otherwise discriminate against the Member in any way to prevent him or her from obtaining a welfare benefit or exercising rights under ERISA.

Enforce the Member's Rights

If the Member's claim for a welfare benefit is denied or ignored, in whole or in part, the Member has a right to know why this was done, to obtain copies of documents relating to the decision without charge, and to appeal any denial, all within certain time schedules.

Under ERISA, there are steps the Member can take to enforce the above rights. For instance, if the Member requests a copy of plan documents or the latest annual report from the plan and do not receive them within 30 days, he or she may file suit in a Federal court. In such a case, the court may require the plan administrator to provide the materials and pay the Member up to \$110 a day until the Member receives the materials, unless the materials were not sent because of reasons beyond the control of the administrator. If the Member has a claim for benefits which is denied or ignored, in whole or in part, the Member may file suit in a state or Federal court. In addition, if the Member disagrees with the plan's decision or lack thereof concerning the qualified status of a domestic relations order or a medical child support order, the Member may file suit in Federal court. If it should happen that plan fiduciaries misuse the plan's money, or if the Member is discriminated against for asserting his or her rights, the Member may seek assistance from the U.S. Department of Labor, or the Member may file suit in a Federal court. The court will decide who should pay court costs and legal fees. If the Member is successful the court may order the person the Member has sued to pay these costs and fees. If the Member loses, the court may order the Member to pay these costs and fees, for example, if it finds the Member's claim is frivolous.

Assistance with Member Questions

If the Member has any questions about his or her plan, the Member should contact the plan administrator. If the Member has any questions about this statement or about his or her rights under ERISA, or if the Member needs assistance in obtaining documents from the plan administrator, the Member should contact the nearest office of the Employee Benefits Security Administration, U.S. Department of Labor, listed in the telephone directory or the Division of Technical Assistance and Inquiries, Employee Benefits Security Administration, U.S. Department of Labor, 200 Constitution Avenue N.W., Washington, D.C. 20210. The Member may also obtain certain publications about his or her rights and responsibilities under ERISA by calling the publications hotline of the Employee Benefits Security Administration.

**NOTICE OF PROTECTION PROVIDED BY
PENNSYLVANIA LIFE AND HEALTH INSURANCE GUARANTY ASSOCIATION**

This notice provides a **brief summary** regarding the protections provided to policyholders by the Pennsylvania Life and Health Insurance Guaranty Association ("the Association"). This protection was created under Pennsylvania law, which determines who and what is covered and the amounts of coverage.

The Association was established to provide protection in the unlikely event that your member life, annuity, or health insurance company, RANLI PPO, hospital plan corporation, professional health services plan corporation or health maintenance organization (member insurer) becomes financially unable to meet its obligations. If this should happen, the Association will typically arrange to provide coverage, pay claims, or otherwise provide protection in accordance with Pennsylvania law. The protection provided by the Association is not unlimited and is not a substitute for consumers' care in selecting companies that are well managed and financially stable.

Below is a brief summary of the coverages, exclusions and limits provided by the Association. This summary does not cover all provisions of the law; nor does it in any way change anyone's rights or obligations or the rights or obligations of the Association.

COVERAGE

Persons Covered

Generally, individuals will be protected by the Association if the member insurer was a member of the Association and the individual lives in Pennsylvania at the time the member insurer is determined by a court to be insolvent. Coverage is also provided to policy beneficiaries, payees or assignees of such individuals.

Amounts of Coverage

The basic coverage protections provided by the Association per insured in each insolvency are limited in the aggregate to \$300,000 (or \$500,000 in the case of health benefit plans), including specific limits for the following types of coverage but not in excess of the contractual obligations of the member insurer;

Individual annuities

- Up to \$250,000 in the present value of benefits, including cash surrender and net cash withdrawal values.

- any policy or contract or portion of a policy or contract which is not guaranteed by the member insurer or for which the individual has assumed the risk, such as a variable contract sold by prospectus;

- claims based on marketing materials or other documents which are not approved policy or contract forms, claims based on misrepresentations of policy or contract benefits, and other extra-contractual claims;
- any policy of reinsurance (unless an assumption certificate was issued);

- unallocated annuity contracts (which give rights to group contractholders, not individuals) other than in limited circumstances and amounts;
- certain contracts which establish benefits by reference to a portfolio of assets not owned by the member insurer; or
- policies providing health care benefits for Medicare Parts C or D coverage, for Medicaid or under the Pennsylvania program for Comprehensive Health Care for Uninsured Children.
