Quick Reference Preferred Drug List - Tiers 1 & 2

The 2018 Quick Reference Preferred Drug List is an alphabetical listing of preferred and generic drugs. Generics should be considered the first line of prescribing. The preferred medicines are listed to help identify products that are clinically appropriate and cost effective. This is not an all-inclusive list and is subject to change. This list represents **brand products in CAPS** and **generic products in lowercase**.

The Preferred Alternatives Drug List, lists non-preferred brand-name drugs with their preferred and/or generic alternatives.

Please note that specific prescription benefit plan designs may not cover certain medicines, regardless of their appearance in this document. Please read the prescription drug section of your Group Plan Booklet-certificate. Also please note that **some of the drugs listed may be on one of the pharmacy programs; Dose Optimization, Prior Authorization or Quantity limits - those drugs are identified with an asterisk (*)**.

We encourage you to register and use the Caremark website that is linked to the www.nipponlifebenefits.com website.

Use the “Check Drug Coverage and Cost” tool on the CVS Caremark website for the most up to date information. If you do not have access to the website, or would prefer to talk to a customer service representative, have your ID card available and call CVS Caremark customer service at **866-644-7527**.

We Cover family planning services which consist of FDA-approved contraceptive methods prescribed by a Provider, not otherwise Covered under the Prescription Drug Coverage section of your Nippon Life Insurance Company of America Booklet-Certificate, counseling on use of contraceptives and related topics, and sterilization procedures for women. Such services are not subject to Copayments, Deductibles or Coinsurance when provided in accordance with the comprehensive guidelines supported by HRSA and items or services with an “A” or “B” rating from USPSTF and when provided by a Participating Provider.

NOTHING HEREIN IS A GUARANTEE OF BENEFITS OR ELIGIBILITY. ALL TERMS, PROVISIONS, CONDITIONS, LIMITATIONS AND EXCLUSIONS SHOWN IN YOUR NIPPON LIFE INSURANCE COMPANY OF AMERICA CERTIFICATE AND MASTER POLICY WILL GOVERN.

FOR YOUR INFORMATION: Generics should be considered the first line of prescribing. This Drug List represents a summary of prescription coverage. It is not all-inclusive and does not guarantee coverage. New-to-market products and new variations of products already in the marketplace may not be added to the formulary immediately. Each product will be evaluated for clinical appropriateness and cost-effectiveness. Recommended additions to the formulary will be presented to the CVS Caremark National Pharmacy and Therapeutics Committee (or other appropriate reviewing body) for review and approval. In most instances, a brand-name drug for which a generic product becomes available will be designated as a non-preferred option upon release of the generic product to the market. Specific prescription benefit plan design may not cover certain products or categories, regardless of their appearance in this document. The member's prescription benefit plan may have a different copay¹ for specific products on the list. Unless specifically indicated, drug list products will include all dosage forms. This list represents brand products in CAPS, branded generics in upper- and lowercase *Italics*, and generic products in lowercase *italics*. Generics listed in therapeutic categories are for representational purposes only. Listed products may be available generically in certain strengths or dosage forms. Dosage forms on this list will be consistent with the category and use where listed. Log in to Caremark.com to check coverage and copay¹ information for a specific medicine.

An exception process may exist for specific clinical or regulatory circumstances that may require coverage of an excluded medication.

- ¹ The preferred options in this list are a broad representation within therapeutic categories of available treatment options and do not necessarily represent clinical equivalency.
- ² For use in patients previously treated with an HCV regimen containing an NS5A inhibitor (for genotypes 1-6) or sofosbuvir without an NS5A inhibitor (for genotypes 1a or 3).
- ³ Listing does not include generic CARDIZEM LA.
- ⁴ A ONETOUCH blood glucose meter may be provided at no charge by the manufacturer to those individuals currently using a meter other than ONETOUCH. For more information on how to obtain a blood glucose meter, call: 1-800-588-4456.
- ⁵ ONETOUCH brand test strips are the only preferred options.
- ⁶ BD ULTRAFINE syringes and needles are the only preferred options.
- ⁷ Listing reflects the authorized generics for TESTIM and VOGELXO.
