

Illinois Notice of Formulary Drug List Changes

A drug's preferred or cost-tier sharing may change on January 1st of each year. If the tier changes, you will be notified of the change at least 60 days before the date the change becomes effective. However, if the United States Food and Drug Administration (FDA) deems a drug on the formulary to be unsafe or if the drug's manufacturer notifies the FDA of a manufacturing discontinuance (or potential discontinuance) or removes the drug from the market, the drug will immediately be removed from the formulary.

If you have any questions about these changes, please contact CVS Caremark customer service, available 24 hours a day, 7 days a week, at 866-644-7527.

Effective January 1, 2021, the following formulary changes will apply:
