

Standards for Building the EyeMed Vision Network

Nippon Life Insurance Company of America® utilizes the Eyemed Network. To build their vision networks, Eyemed looked at how many vision care providers there are in a specific area. This way they can ensure that we have enough providers available to meet your routine vision care needs. The network of eye doctors includes thousands of independent providers, popular retailers and online options so you can see who you want to see, where and when you want to see them.

Eyemed created the vision network based on numerous market variables. They chose providers for this network based on the following criteria:

- Access and availability
- Meets our credentialing standards
- Provider ability to meet network participation criteria
- Cost efficiency
